

# Sacssp Registration Form For New Social Workers

**Michael P. Leiter, Christina Maslach**

Social Work and Social Development James Midgley, Amy Conley, 2010-05-19 Social workers have been involved in social development for many years, but it is only recently that these ideas have been explicitly applied to social work practice. The result is that a new and distinctive approach to social work practice known as developmental social work has emerged. Developmental social work emphasizes the role of social investment in professional practice. These investments meet the material needs of social work's clients and facilitate their full integration into the social and economic life of the community. Developmental social workers believe that client strengths and capabilities need to be augmented with public resources and services if those served by the profession are to live productive and fulfilling lives. Although developmental social work is inspired by international innovations, particularly in the developing countries, it is highly relevant to practice in the United States and other Western nations. In the first book to lay out a clear framework for developmental social work practice, chapters will focus on the traditional fields of social work practice, showing how social investment strategies can be adopted by social workers in their daily practice with populations including families and children, people with mental illness, homeless youth, people with disabilities, the elderly, and those in the correctional system. By facilitating clients' full social and economic participation through a variety of strategies, such as microenterprise or asset-building programs, practitioners can help bring about meaningful changes in clients' lives and throughout their communities. The editors and contributors offer a highly original exposition of developmental social work theory and practice, providing a definitive guide to an emerging and exciting new approach to practice.

**Issues Around Aligning Theory, Research and Practice in Social Work Education** Allucia L. Shokane, Jabulani C. Makhubele, Lisa V. Blitz, 2018-12-01 Issues Around Aligning Theory, Research and Practice in Social Work Education provides a reflection on social work education with a slant towards an Afrocentric approach, aiming to facilitate strong reflective thinking and to address local realities about social work education on the African continent as well as in broader global contexts. This volume focuses on issues around aligning theory, research and practice in social work education. A significant contribution is made here to the scholarly understanding of opportunities to sustain the academic discourse on social work education. Social work as a profession and a social science discipline is dynamic, and it ought to meet the challenges of the

realities of the societies in which it serves, given the history of the changing society of South Africa from apartheid to democracy. Over the years, social work education and training has undergone tremendous curricular changes with the enactment of the White Paper for Social Welfare and the national review, respectively, by the South African Council for Social Services Professions (SACSSP) and the Council on Higher Education (CHE) for the re-accreditation of all Bachelor of Social Work (BSW) programmes in South Africa fulfilling the prescripts of the Higher Education Act (No. 101 of 1997, as amended) and Social Service Professions Act (No. 110 of 1978). It is worth mentioning that the curricular changes will also continue with the current reviewing of Social Service Professions Act (No. 110 of 1978), as amended, which is underway in South Africa. This book is really ground-breaking! The Afrocentric perspective on social work practice contributes to the current discourse on decolonisation of social work teaching and practice. From a methodological perspective, the book is premised on multi-, inter- and trans-disciplining in social sciences. It covers aspects of social work education and practice through research (narrative, qualitative, African methodology, secondary data analysis, etc.), engendering values and ethics, report writing, supervision in fieldwork as well as exchange programmes and international service-learning, addressing a number of concepts such as cultural competency, cultural awareness and sensitivity are addressed.

**Social Work Supervision** Ming-sum Tsui, 2004-06-23 Social work supervision has been identified as one of the most important factors in determining the job satisfaction levels of social workers and the quality of service to clients. As an indirect but vital factor in the social work process, it is surprising that supervision has not received as much attention as other components of social work practice, such as social work research or administration. A book on social work supervision is desperately needed to bridge the gap between the demands of the field and the absence of literature. *Social Work Supervision: Contexts and Concepts* aims to provide readers with basic knowledge of theories, research, and practice of supervision. The book will address the needs of social work supervisors, frontline practitioners, students, and educators. The book is ideally suited as a text for graduate courses on social work supervision, as it contains a comprehensive literature review of the historical development, theories and models, and empirical research studies of the subject. Equally important, this is a book from practice experience in supervision that enhances the competence of supervisory practice. It will help social workers, supervisors, and administrators to realize and revitalize their mission in social work, that is, to benefit clients. Key Features: \* Presents social work supervision as a rational, effective, and interactive process focusing on the whole person of the social worker \* Discusses the history, the nature and definitions, and the theoretical models of social work supervision \* Explores the major functions of social work supervision—administrative, educational, and supportive \* Addresses the specific format and structure of supervision sessions

**Social Work: Themes, Issues and Critical Debates** Robert Adams, Lena Dominelli, Malcolm Payne, 2017-09-16 *Social Work: Themes, Issues and Critical Debates*, one of the most respected and widely used textbooks in social work, has now been

completely revised and updated. With its accessible and clearly structured framework, the book offers expert discussion of the core topics in social work by top writers, teachers and practitioners in the field. It provides an essential grounding in the debates that shape the profession, as well as a clear insight into the issues at the heart of practice. What makes this highly regarded and bestselling book stand out from other texts? - Its range, authority and theoretical integrity - Its clear and effective structure, which reflects major shifts in teaching and makes it easy to use across modules - The importance it lays on practice-based learning and on developing core practice skills such as communication, assessment and intervention - Its value as a springboard to further reading (including extensive guidance on further print and electronic sources) - Its compact size - perfect for readers who are travelling between campus and practice settings. This is one of three interrelated books edited by the internationally renowned and widely published team, Robert Adams, Lena Dominelli and Malcolm Payne. The companion books are *Critical Practice in Social Work* (second edition) and *Practising Social Work in a Complex World*. Each book can be used alone or in combination with the other two as a uniquely flexible and comprehensive programme of study.

**Social Work in Social Change** Nicci Earle, 2008 This study forms part of a series of studies on professions and professional education being conducted by the HSRC's research programme on Education, Science & Skills Development. It follows a pilot study on medical doctors, published in 2006 entitled *Doctors in a Divided Society: The profession and education of medical practitioners in South Africa*. Like the other studies in the series, this study involved developing an understanding of the professional milieu and professional labour market of social workers. As the implementers of government social policy, social work professionals have been at the forefront of grappling with the practicalities of the changes in focus, approach and methods of social security and social service delivery since 1994. It examines developments in the education and training of social workers within the democratic dispensation, the most significant of which is the development of a national, standardised Bachelor of Social Work degree. The study also reveals that the dominant profile in student enrolment and graduation statistics has changed from white female to African female, and that enrolment has increased significantly. However, the study also shows that graduation trends have been negative and losses due to emigration are an additional concern. Given the scarcity of these professionals against the demand for their services, understanding the factors that contribute to this picture are critical to effective intervention.

**Social Work Supervision** Carlton E. Munson, 1979-04-01 A comprehensive view of historical and current approaches to social work supervision, which includes one of the most extensive bibliographies ever compiled on the subject. In this overview of historical and current approaches to social work supervision, topics range from the first documented origins of supervision to the field's future trends, with special emphasis on organizational authority and the increasingly controversial issue of professional autonomy. In *Social Work Supervision*, the author offers social work students, instructors, and practicing supervisors valuable practical guidelines and a solid intellectual foundation for an effective and efficient approach

to social work supervision, in a compact reference work.

*Practising Social Work* Christopher Hanvey, Terry Philpot, 2002-08-26 *Practising Social Work* provides a systematic exploration of a range of social work approaches. Each chapter focuses on a single theme and explains the practice implications of a particular method.

School Social Work Worldwide Marion Huxtable, Eric Blyth, 2002 This book opens the boundaries of international school social work as never before. Sequentially arranged chapters allow practitioners, educators, and students to follow the expansion of school social work practice around the world. Leaders in the field from 12 countries provide eye-opening perspectives and interventions that are impressive in their range and application. Further, the book looks ahead to policy and practice issues for the future direction of the profession. The book makes a compelling statement about contemporary school social work -- the critical need for the international professional community to learn from one another so that all of our children can reach their full potential through education. It exemplifies the value of collaboration in developing the literature of the profession and raises issues for social work educators about including international themes in social work education.

Supervision in Social Work Alfred Kadushin, 1992 Updating long-standing controversies such as the conflict between professionalism and bureaucracy, and addressing the question of social work autonomy within organizations, this book discusses how dwindling resources have forced social work practice to become more results-oriented in a limited time frame.

### **Case work-group work ,1947**

Handbook of International Social Work Lynne M. Healy, Rosemary J. Link, 2012 Global knowledge is increasingly essential for all aspects of social work. Today's professionals respond to concerns including permeable borders, the upheavals of war, displaced workers, natural disasters, international adoption, and human trafficking. Everywhere, social workers work with service users and colleagues from diverse cultures and countries. Globally relevant concepts such as human rights, development, and inclusion offer new perspectives to enhance policy and practice and facilitate the international exchange of ideas. This handbook is the first major reference text to provide a solid foundation of knowledge for students and researchers alike. The extensive collection of 73 chapters confirms the integral and necessary nature of international social work knowledge to all areas of practice, policy, and research. Chapters systematically map the key issues, organizations, competencies, training and research needs, and ethical guidelines central to international social work practice today, emphasizing the linkages among social work, development, and human rights practice. In-depth country case studies and policy examples encourage readers to understand how their practice in social work touches on international issues, regardless of whether the work is done at home or abroad. Representing all regions of the world, a wide range of contributors that are leaders in their fields have put together an exhaustive collection that represents the state-of-play of international social work today.

Environmental Social Work Mel Gray, John Coates, Tiani Hetherington, 2013 Divided into three parts, this field-defining work explores what environmental social work is, and how it can be put into practice. It focuses on theory, discussing ecological and social justice, as well as sustainability, spirituality and human rights.

**Person-Centred Facilitation** Hanka Dorothee Grobler, C. J. Schenck, R Schenck, Rembuluwani Paul Mbedzi, 2013-10-31 How can social workers, psychologists and counsellors improve communication with their clients? What can these facilitators do to enhance their listening and empathic skills? How can they create an environment of trust in which clients - be they individuals, groups, families, or communities - can develop and grow effectively? Person-Centred Facilitation presents the theory and practice of the person-centred approach to facilitating counselling, as developed by Carl Rogers. The text provides an introduction to the person-centred approach in relation to individuals, groups, families and communities. It offers a solid theoretical grounding which supports both academic learning and applied practice, and guides readers' understanding and self-development. Revised and updated, the fourth edition integrates values from an African cultural perspective, and reflects the importance of social justice as an element of the developmental counselling process. It offers a wealth of South African case studies, an entirely new section on family counselling, and an expanded focus on group work counselling. Other expanded areas include aspects of constructivism; cross-cultural communication; people in conflict, and the self of the facilitator, the latter two aspects having been integrated into the text of the various chapters.

**Management and Supervision of Social Workers 2e** Lambert K. Engelbrecht, 2019-04-12 This exciting new edition delivers the comprehensive, detailed and sound conceptual framework that is essential in the management and supervision of social work. It offers a unique approach through its dual focus on management and supervision, providing a critical analysis of the contemporary debates related to the issues and challenges specific to social work management and the supervision of social workers. The content draws on South African and African practice examples throughout, as well as relevant research that can also be applied to other social service professions and courses.

**Field Instruction in Social Work Education** Roshni Nair, Srilatha Juvva, Vimla V. Nadkarni, 2019-10-28 A comprehensive guide to social work praxis, this book provides a clear conceptual understanding of fieldwork supervision in India. It elaborates on the dynamic components of fieldwork instruction - the methodologies and effective strategies, the supervisor-student-agency triad, challenges and the future. The volume underlines the importance of student mentoring and the imperative need to develop creative and competent strategies to make fieldwork education more responsive and effective. It also emphasises the need for the inclusion of social justice-oriented perspectives and approaches in fieldwork training in India. Instructive and anecdotal, the chapters in this volume reflect on the challenges which students and supervisors face on a regular basis in different environments while dealing with critical circumstances. The focus of the book is to delineate strategies and approaches which promote skill building and the ability in students to understand sociocultural

contexts of the field and engage with them effectively. This volume will be an essential resource for social work educators, field practitioners and students of social work, law, public policy, sociology and social entrepreneurship.

**Skills Shortages in South Africa** Johan Erasmus, Mignon Breier, 2009 Skills shortages in South Africa are widely seen as a major obstacle to the achievement of targeted economic growth rates. Yet there is some dispute as to the nature and extent of these shortages, given the large number of unemployed graduates. The case studies presented here explore the question of shortage in nine key professions and artisanal trades, and find evidence of skills scarcity in most fields. The case studies provide insight into the reasons for shortages and surpluses in relation to South Africa's own context and history. They also consider the international market for knowledge and skills, in which South African qualifications are highly prized. The monograph emanates from a study on sector specific research and related skills requirements commissioned by the South African Department of Labour in 2006. It formed part of a wider research project on scarce and critical skills related to the National Skills Development Strategy and the National Industrial Policy Framework of 2007, for which the Human Sciences Research Council led a research consortium comprising the Development Policy Research Unit at the University of Cape Town and the Sociology of Work Unit at the University of the Witwatersrand.

**Rural Social Work Practice** O. William Farley, 1982

**Banishing Burnout** Michael P. Leiter, Christina Maslach, 2011-01-11 In this book Michael P. Leiter and Christina Maslach, the leading experts on job burnout prevention and authors of the landmark book *The Truth About Burnout*, outline their revolutionary new program for helping everyone in the workplace overcome everyday stress and pressures and achieve their career goals. *Banishing Burnout* includes the authors' unique and highly effective Work Life self-assessment test and a customized plan for action that will help transform the individual's relationship with work and overcome job burnout. The authors outline their proven action plan, which shows how to establish core values, set a personal direction, engage other people, initiate a realistic plan of action, make an impact, and achieve career goals. The book is filled with illustrative case examples from a wide variety of organizations, including corporations, health care institutions, universities, and nonprofit organizations. Each case demonstrates how the use of the Work Life self-survey and the individualized action plan can result in dramatic changes in the daily workplace experience and advance career development.

**Social Work** Brenda DuBois, Karla Krogsrud Miley, 2014 Applies the empowerment perspective to the Social Work profession. *Social Work: An Empowering Profession*, 8/e introduces the social work profession and interweaves contemporary themes of strength, human rights, and social justices. In addition, this title details the empowerment-oriented roles of the social worker as consultant, resource manager, and educator. *Connecting Core Competencies* series -- Each chapter highlights the core competencies and practice behavior examples found in the Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE). Critical thinking questions throughout reinforces

these connections. Learning Goals Upon completing this book, readers will be able to: Understand the Social Work Profession. Apply principles of empowerment to various fields of social work practice. Apply critical thinking skills to case scenarios presented throughout the text. Analyze issues faced by clients using a human right and social frame. Examine personal perspectives and biases.
