Great Britain. Parliament. Joint Committee on Human Rights

Legislative Scrutiny Great Britain. Parliament. Joint Committee on Human Rights, 2009 In this report on the Borders, Citizenship and Immigration Bill, the Joint Committee on Human Rights says the Government should reconsider proposed changes to the pathway to British citizenship. Whilst the Bill does not change the underlying position of migrants' access to benefits, it extends the time it takes to get to applying for citizenship by a year. During this period a person given the new 'probationary citizenship' will be ineligible for 15 different types of benefit that are available to those with 'indefinite leave to remain'. The Committee is also concerned that the new rules may be applied retrospectively and urges the Government not to override the legitimate expectations of migrants already on the path to citizenship under the current rules. The Committee also has concerns about the proposed 'short cut' to citizenship, reducing the time it takes to naturalise can by two years if applicants participate in unpaid community activity. Tracking this activity risks infringing people's right to privacy, and the Committee is also concerned that the requirement risks penalising people who are unable to undertake such activities, because of disability or caring responsibilities or because they are already in paid full time work. The Committee welcomes the new positive duty to safeguard and promote the welfare of children in the discharge of immigration, asylum, nationality and customs functions and the reversal of the Government's previous policy of excluding children subject to immigration control from the protection of the UN Convention on the Rights of the Child.

The Work of the UK Border Agency (April-June 2012) Great Britain: Parliament: House of Commons: Home Affairs Committee, 2012-11-09 The Agency's backlog is growing at an alarming rate-it has increased by over 25,000 cases since the first quarter of this year. The backlog consists of: the Migration Refusal Pool which contains records of individuals without leave to remain in the UK, who cannot be traced and has grown by 24,000 records since the first quarter of this year-it now totals 174,000; ex-Foreign National Offenders with 3,954 ex-FNOs living in the community whilst deportation action against them proceeds; the so-called 'controlled' archive with cases the Agency has no control over, it does not even know where the applicants are -there were 95,000 cases in archive' at the end of June this year and senior management promised to clear it by 31st December which would mean writing off 81,000 files; Asylum and migration live cohorts where the UKBA has managed to trace an applicant thought to have been lost and is working to close their case- with 29,000 cases in the live cohorts at the end of June this year. The UKBA must adopt a transparent and robust approach to tackling the backlogs

instead of creating new ways of camouflaging them. Until the entire backlog is cleared the Committee does not believe that senior staff should receive any bonuses. The Committee also doubts that the Agency is adequately equipped to deal with the increase in asylum applications. Cases waiting for an initial decision after 6 months have risen by 36% since June 2011. The Committee is further concerned about the quality of decision making. Poor decision making may result in people being returned home when they face persecution and torture

Fast-tracked Unfairness Gauri van Gulik, Human Rights Watch (Organization), 2010 The report documents how women asylum seekers with complex claims are being routed into a system designed for much simpler claims. The women are held in detention largely for the UK's administrative convenience, have very little time to prepare a legal case, and have only a few days to appeal if refused. But the claims often involve such sensitive and difficult issues as sexual violence, female genital mutilation, trafficking, and domestic abuse.

Bureaucracy, Law and Dystopia in the United Kingdom's Asylum System John R. Campbell, 2016-12-01 The central concern of this book is to find answers to fundamental questions about the British asylum system and how it operates. Based on ethnographic research over a two-year period, the work follows and analyses numerous asylum appeals through the British courts. It draws on myriad interviews with individuals and a thorough examination of many state and non-state organizations to understand how the system works. While the organization of the book reflects the formal asylum process, a focus on specific legal appeals reveals the 'political' factors at play as different institutions and actors seek to influence judicial decision-making and overturn/uphold official asylum policy. The final chapter draws on the author's ethnographic findings of the UK's 'asylum field' to re-examine research on the Refugee Determination System in the US, Canada and Australia which has narrowly focused on judicial decision-making. It argues that analysis of Refugee Determination Systems must be situated and studied as part of a wider, political, semi-autonomous 'asylum field' which needs to be better understood. Providing an in-depth ethnographic study of a national asylum system and of immigration law and practice, the book will be an invaluable resource for academics, researchers and policy-makers in the UK and beyond working in this highly topical area.

Administrative Justice and Asylum Appeals Robert Thomas, 2011-01-18 FIRST PRIZE WINNER OF THE SLS BIRKS PRIZE FOR OUTSTANDING LEGAL SCHOLARSHIP 2011 How are we to assess and evaluate the quality of the tribunal systems that do the day-to-day work of adjudicating upon the disputes individuals have with government? This book examines how the idea of adjudicative quality works in practice by presenting a detailed case-study of the tribunal system responsible for determining appeals lodged by foreign nationals who claim that they will be at risk of persecution or ill-treatment on

return to their country of origin. Over recent years, the asylum appeal process has become a major area of judicial decision-making and the most frequently restructured tribunal system. Asylum adjudication is also one of the most difficult areas of decision-making in the modern legal system. Integrating empirical research with legal analysis, this book provides an in-depth study of the development and operation of this tribunal system and of asylum decision-making. The book examines how this particular appeal process seeks to mediate the tension between the competing values under which it operates. There are chapters examining the organisation of the tribunal system, its procedures, the nature of fact-finding in asylum cases and the operation of onward rights of challenge. An examination as to how the tensions inherent in the idea of administrative justice are manifested in the context of a tribunal system responsible for making potentially life or death decisions, this book fills a gap in the literature and will be of value to those interested in administrative law and asylum adjudication.

Textbook on Immigration and Asylum Law Gina Clayton, 2016 This volume examines the law and system of control which govern immigration and asylum in the UK. It begins with the historical and legal context, explains who is subject to immigration control, and describes the legal and administrative structure of the system.

States, the Law and Access to Refugee Protection Maria O'Sullivan, Dallah Stevens, 2017-03-23 This timely volume seeks to examine two of the most pertinent current challenges faced by asylum seekers in gaining access to international refugee protection: first, the obstacles to physical access to territory and, second, the barriers to accessing a quality asylum procedure - which the editors have termed 'access to justice'. To address these aims, the book brings together leading commentators from a range of backgrounds, including law, sociology and political science. It also includes contributions from NGO practitioners. This allows the collection to offer interdisciplinary analysis and to incorporate both theoretical and practical perspectives on questions of immense contemporary significance. While the examination offers a strong focus on European legal and policy developments, the book also addresses the issues in different regions (Europe, North America, the Middle East, Africa and Australia). Given the currency of the questions under debate, this book will be essential reading for all scholars in the field of asylum law.

Millington and Sutherland Williams on The Proceeds of Crime Trevor Millington, Mark Sutherland Williams, 2010-02-25 The Proceeds of Crime, this new edition has been fully updated to include all important legislative changes over the last three years, and covers all significant case law, including discussion on the release of restrained funds to meet legal expenses following the decisions of the Court of Appeal in Briggs-Price v RCPO and the rights of innocent spouses in the matrimonial home in Gibson v RCPO. It also covers changes in regulation and enforcement including an examination of the future of civil recovery following the abolition of the Assets Recovery Agency and the transfer of its power to the Serious Organized Crime Agency. The new edition incorporates in-depth coverage of the relevant legislation, with analysis of the Proceeds of Crime Act 2002 and reference to case law under both the Drug Trafficking Act 1994 and the Criminal Justice Act 1988.

Migrants, Refugees and Asylum Seekers' Integration in European Labour Markets Veronica Federico, Simone Baglioni, 2021-04-21 This open access book discusses how, and to what extent, the legal and institutional regimes and the socio-cultural environments of a range of European countries (the Czech Republic, Denmark, Finland, Greece, Italy, Switzerland and the UK), in the framework of EU laws and policies, have a beneficial or negative impact on the effective capacity of these countries to integrate migrants, refugees and asylum seekers into their labour markets. The analysis builds on the understanding of socio-cultural, institutional and legal factors as “barriers” or “enablers”; elements that may facilitate or obstruct the integration processes. The book examines the two dimensions of integration being access to the labour market (which, translated into a rights language means the right to work) with its corollaries (recognition of qualifications, vocational training, etc.), and non-discriminatory working conditions (which, translated into a rights language means right to both formal and substantial equality) and its corollaries of benefits and duties deriving from joining the labour market. It thereby offers a novel approach to labour market integration and migration/asylum issues given its focus on legal aspects, which includes most recent policy changes and legal decisions (including litigation cases). The robust, evidence-based and comparative research illustrated in the book provides academics and students, but also practitioners and policy makers, with up to date knowledge that will likely impact positively on policy changes needed to better address integration conundrums.

Handbook of Policing, Ethics, and Professional Standards Allyson MacVean, Peter Spindler, Charlotte Solf, 2012 This book provides a single text of different perspectives on how professional standards and ethics has been conceptualised and developed into practical policing processes for the purposes of policing, not only by the police but also by the partner agencies.

Migration and Remittances During the Global Financial Crisis and Beyond Ibrahim Sirkeci, Jeffrey H. Cohen, Dilip

Ratha,2012-05-30 During the 2008 financial crisis, the possible changes in remittance-sending behavior and potential avenues to alleviate a probable decline in remittance flows became concerns. This book brings together a wide array of studies from around the world focusing on the recent trends in remittance flows. The authors have gathered a select group of researchers from academic, practitioner and policy making bodies. Thus the book can be seen as a conversation between the different stakeholders involved in or affected by remittance flows globally. The book is a first-of-its-kind attempt to analyze the effects of an ongoing crisis on remittance flows globally. Data analyzed by the book reveals three trends. First, The more diversified the destinations and the labour markets for migrants the more resilient are the remittances sent by migrants. Second, the lower the barriers to labor mobility, the stronger the link between remittances and economic cycles in that corridor. And third, as remittances proved to be relatively resilient in comparison to private capital flows, many remittance-dependent countries became even more dependent on remittance inflows for meeting external financing needs. There are several reasons for migration and remittances to be relatively resilient to the crisis. First, remittances are sent by the stock (cumulative flows) of migrants, not only by the recent arrivals (in fact, recent arrivals often do not remit as regularly as they must establish themselves in their new homes). Second, contrary to expectations, return migration did not take place as expected even as the financial crisis reduced employment opportunities in the US and Europe. Third, in addition to the persistence of migrant stocks that lent persistence to remittance flows, existing migrants often absorbed income shocks and continued to send money home. Fourth, if some migrants did return or had the intention to return, they tended to take their savings back to their country of origin. Finally, exchange rate movements during the crisis caused unexpected changes in remittance behavior: as local currencies of many remittance recipient countries depreciated sharply against the US dollar, they produced a “sale” effect on remittance behavior of migrants in the US and other destination countries.

Socio-Legal Integration Agnieszka Kubal,2016-04-01 This book examines how contemporary migrants form and transform their involvement with the law in their host countries and which factors influence this relationship. It suggests a more comprehensive insight into the socio-legal integration of migrants by analysing the interplay between the new legal environment and migrants' existing culturally-derived values, attitudes, behaviour and social expectations towards law and law enforcement. Acknowledging the superdiversity of migration as a global issue, the book uses the case study of Polish post-2004 EU Enlargement migrants to examine values and attitudes to the rules that govern their work and residence in the UK and to the legal system in general. With wider international relevance than just Poland and the UK, this book makes a case for the meaningful employment of legal culture in socio-legal integration research and suggests far-reaching consequences for host countries and their immigrant communities.

Immigration Judicial Reviews Robert Thomas,Joe Tomlinson,2022-01-01 This book analyses how the system of immigration judicial reviews works in practice, as an area which has, for decades, constituted the majority of judicial review

cases and is politically controversial. Drawing upon extensive empirical research and unprecedented research access, it explores who brings judicial review challenges against immigration decisions and why, the type of immigration decisions that are challenged, how cases proceed through the judicial review process, how cases are settled out of court, and how judicial review interacts with other legal and non-legal remedies. It also examines the quality of immigration judicial review claims and the quality of the initial administrative decisions being challenged. Through developing a novel account of the operation of the immigration judicial review system in practice and the lived experience of it by judges, representatives, and claimants, this book adds a significant new perspective to the wider understanding of judicial review.

House of Lords - Persuasion and Power in the Modern World - HL 150 Great Britain: Parliament: House of Lords: Select Committee on Soft Power and the UK's Influence, 2014-03-28 While strong Armed Forces remain the bedrock in safeguarding national interests new kinds of power projection are now required, both to make the use of force ('hard power') more effective and in some instances to replace it with the deployment of what has been labelled 'soft power'. Soft power involves getting what a country wants by influencing other countries to want the same thing, through attraction, persuasion and co-option. The information and digital revolution has transformed international relations and foreign policy, meaning that the UK must win over new and wider audiences to its point of view. The UK must change the way it interacts with other nations and communities, and is well-equipped to do so. Soft power methods of exercising international influence must now be combined with older approaches in order to secure and promote the UK's interests and purposes. To ensure that the exercise of soft power takes its place at the core of government policy-making, the Committee calls for the creation of a new strategic unit at the heart of Government. Its purpose would be to assist the Prime Minister in ensuring all Departments understand the importance of soft power and of upholding the UK's reputation, and in swiftly counteracting any potentially damaging policies or messages. While investing in soft power takes time to produce results, the Committee makes a number of recommendations including that BBC World Service's budget is not reduced any further in real terms and that the British Council is properly resourced to encourage the UK's creative industries
