Larry Miller, John Whitehead

Report Writing for Criminal Justice Professionals Larry S. Miller, John T. Whitehead, 2010-11-24 So much of the process of criminal justice depends on good documentation, and criminal justice professionals can spend as much as 50-75% of their time writing up administrative and research reports. Much of the legal process depends on the careful documentation that records crucial information. And yet most of these law enforcement, security, corrections, and probation and parole officers have not had adequate training in how to provide a well-written, accurate, brief, and complete report. *Report Writing for Criminal Justice Professionals* provides practical advice on report writing -- with specific writing samples and guidelines. The authors go beyond the routine English grammar approach to deal with the difficult but often-ignored problem of documentation that will hold up in court. Important concepts are emphasized with related checklists, forms, and pull-out chapter tests. The material is organized into three sections: The Nature of Report Writing, The Mechanics of Report Writing, and The Modernization of Report Writing NEW TO THIS EDITION Updated and revised with new material on forensics and scientific reports, crime reporting, common errors in forensic reports, and automation of report writing. Appendixes are thoroughly revised, with new examples of reporting forms, worksheets, and reports, including a sample forensic lab report and presentence investigation report. Text complemented by numerous examples, sample reports and tools. Each chapter concludes with a sample test for the reader to self-evaluate learning. Appendices include model reports, examples of agency instructions for completing report forms and selected readings.

Report Writing for Criminal Justice Professionals Larry Miller, John Whitehead, 2017-09-14 The criminal justice process is dependent on accurate documentation. Criminal justice professionals can spend 50-75 percent of their time writing administrative and research reports. The information provided in these reports is crucial to the functioning of our system of justice. *Report Writing for Criminal Justice Professionals*, Sixth Edition, provides practical guidance—with specific writing samples and guidelines—for providing strong reports. Most law enforcement, security, corrections, and probation and parole officers have not had adequate training in how to provide well-written, accurate, brief, and complete reports. *Report Writing for Criminal Justice Professionals* covers everything officers need to learn—from basic English grammar to the difficult but often-ignored problem of creating documentation that will hold up in court. This new edition includes updates to reference materials and citations, as well as further supporting examples and new procedures in digital and electronic report writing.

The Retailer's Guide to Loss Prevention and Security Donald J. Horan,1996-11-27 The Retailer's Guide to Loss Prevention and Security is an introduction to retail security. It covers the basic principles, the various techniques and technologies available, and the retailer's interaction with the police, courts, and the law. Donald J. Horan, President of Loss Control Concepts, Ltd., lends to this book his vast experience in the retail business and as a loss control consultant. Designated a Certified Protection Professional by the American Society for Industrial Security, he is also a member of the International Association of Professional Security Consultants (IAPSC). He has directed and managed retail loss prevention programs all over the U.S. for major department stores and specialty chains, and has provided his expertise to a host of client companies during his tenure with the National Loss Prevention Bureau. Donald Horan's practical experience fills this book with all the tips, strategies, and procedures you need to create an effective loss prevention program. Owners, managers, and security managers of small and medium-sized retail operations; security agencies; individuals, institutions, and companies that give

seminars on the topic; and personnel in law enforcement and forensics will find this an essential text. It will be extremely helpful to senior corporate executives to whom the loss prevention/security function reports, because it is their responsibility to determine whether loss prevention practices conform to the long-term goals of the company. Growing retail businesses and those contemplating future acquisitions for expansion will find the work invaluable. The same can be said for turn-around ventures or downsized businesses emerging from reorganization. The book would also be easily adaptable for use in undergraduate courses in an accredited criminal justice or retail management program.
