Private Gardens of the Bay Area Susan Lowry, Nancy Berner, 2017-10-17 Seasoned garden writers Susan Lowry and Nancy Berner, along with leading landscape photographer Marion Brenner, tour more than thirty-five private gardens in the San Francisco Bay Area, illuminating the unrivalled beauty of Northern California—the breadth of the sky, the quality of the light, the sparkle of the Bay, the shapes of the hills—that has beckoned landscape designers and gardeners for generations. Organized geographically—starting with the San Francisco Peninsula, moving north into San Francisco itself, crossing the Bay into Berkeley and Oakland, and finishing in Napa, Sonoma, and Marin—*Private Gardens of the Bay Area* encompasses an extraordinary range of micro-climates that foster the cultivation of an equally extraordinary range of plants. The kaleidoscope of vigorous plants from five continents bursting out of an Oakland front yard is one kind of garden, the clean-lined contemporary composition of drought-tolerant natives and gravel is another, and the garden tucked into the mountain landscape of oaks, manzanitas, and ceanothus is yet another. This fascinating tour includes gardens such as Green Gables, where the 1911 terraced design by Greene & Greene is meticulously preserved; Big Swing, with a world-renowned collection of salvias; a vertical garden on a vertiginous site in San Francisco by Surfacedesign; and a romantic landscape of lawns, perennial beds, and stately oaks owned by noted collectors and gallerists Gretchen and John Berggruen. Lowry and Berner describe the goals of each garden owner and the principles behind the designs.

Sowing Beauty James Hitchmough, 2017-04-19 “A hopeful and expansive book for the gardener who sees a field as a canvas.” —Publishers Weekly James Hitchmough is well-regarded in the design world for his exuberant, colorful, and flower-filled meadows. His signature style can be seen in prominent places like London’s Olympic Park and the Botanic Garden at the University of Oxford. Using a distinct technique of sowing meadows from seed, he creates plant communities that mimic the dramatic beauty of natural meadows and offer a succession of blooms over many months—a technique that can be adapted to work in both large-scale public gardens and smaller residential gardens. *Sowing Beauty* shows you how to recreate Hitchmough’s masterful, romantic style. You’ll learn how to design and sow seed mixes that include a range of plants, both native and exotic, and how to maintain the sown spaces over time. Color photographs show not only the gorgeous finished gardens, but also all the steps along the way.

The Artful Garden James van Sweden, Tom Christopher, 2011-02-01 “I want to put the mystery back into the heart of garden design, where it needs to be. It’s what lures you in through the gate, keeps you moving through the landscape, and fills you with excitement along the way. The sense of mystery is what turns a mere display of plants, paths, and ornaments into an adventure.” —James van Sweden Guided by world-renowned landscape architect James van Sweden and horticulture expert Tom Christopher, any gardener can learn the secrets of the gardener’s art and absorb the essence of inspired garden design. In their gifted hands, creating your own perfect garden, with its own alluring mysteries, turns out to be not only easy but a delight. Whether it’s a ten-foot-square city terrace or a ten-acre expanse, the same principles apply: the intelligent use of positive and negative space, of form and scale, of light and shadow, of rough and smooth textures. Do you want a garden you can immerse yourself in? A garden you can smell and listen to as well as observe? An exuberant garden or a contemplative garden? In this elegantly written and visually stunning book, van Sweden reveals the secrets of famous gardens around the world and encourages you to find inspiration in the arts—in painting (from America’s classic regional artists to the abstract expressionists), music (from classical to jazz), sculpture, even dance. He introduces you to famous artists who share how their art has influenced the design of their own gardens, and teaches you to think not in terms of borders and beds or even paths and meadows but of a tapestry woven from sky, trees, rocks, vines, flowers, grasses, and space. Richly illustrated throughout with magnificent photographs, *The Artful Garden* both tells and shows, sharing with beginning and experienced gardeners a wealth of inspiration and practical help. “What’s my message?” van Sweden asks in conclusion. The wise answer: “Don’t squander the potential for surprise and wonder.” This beautiful book guarantees everyone who reads it a priceless store of gardening wisdom.
