Remaking Modernity Julia Adams, Elisabeth S. Clemens, Ann Shola Orloff, 2005-02-01 A state-of-the-field survey of historical sociology, *Remaking Modernity* assesses the field's past accomplishments and peers into the future, envisioning changes to come. The seventeen essays in this collection reveal the potential of historical sociology to transform understandings of social and cultural change. The volume captures an exciting new conversation among historical sociologists that brings a wider interdisciplinary project to bear on the problems and prospects of modernity. The contributors represent a wide variety of theoretical orientations and a broad spectrum of understandings of what constitutes historical sociology. They address such topics as religion, war, citizenship, markets, professions, gender and welfare, colonialism, ethnicity, bureaucracy, revolutions, collective action, and the modernist social sciences themselves. *Remaking Modernity* includes a significant introduction in which the editors consider prior orientations in historical sociology in order to analyze the field's resurgence. They show how current research is building on and challenging previous work through attention to institutionalism, rational choice, the cultural turn, feminist theories and approaches, and colonialism and the racial formations of empire. *Sociology in Russia* Larissa Titarenko, Elena Zdravomyslova, 2017-08-17 This book represents the first comprehensive historical treatment of sociology in Russia from the mid-nineteenth century through the pre-revolutionary and Soviet eras to the present day. It sheds new light on the dramatic history of sociology in the Russian context; dramatic both in its relationship with state power, and in the large-scale societal transformations it has had to grapple with. The authors highlight several particularities including the late institutionalization of sociology in the Soviet period, the breaks in continuity between its main historical periods and the relationship between sociology and power throughout its history. This valuable work will appeal to social science and history scholars, as well as readers interested in the history of contemporary Russia.

**Into the Box of Delights** Anna Home,1993 This history of children's television describes its development since the earliest days when Muffin the Mule made his first appearance in 1946. It tells how many of the best-loved and most successful programmes originated, and writes about the people behind the scenes and in front - the producers, animators, presenters, actors and actresses. Among the many types of programmes discussed are puppets (from Sooty and Tingha and Tucker in the Fifties, to today's favourites), pre-school programmes such as Playschool and Rainbow, storytelling (especially the long-running Jackanory), drama, information programmes such as Blue Peter, and Saturday-morning programmes and entertainment.

It provides a critical update on how Russian society, politics, economy, and culture are reconfigured in the context of ubiquitous connectivity and accounts for the political and societal responses to digitalization. In addition, it answers practical and methodological questions in handling Russian data and a wide array of digital methods. The volume makes a timely intervention in our understanding of the changing field of Russian Studies and is an essential guide for scholars, advanced undergraduate and graduate students studying Russia today.

*The Scientific Life* Steven Shapin,2009-08-01 Who are scientists? What kind of people are they? What capacities and virtues are thought to stand behind their considerable authority? They are experts—indeed, highly respected experts—authorized to describe and interpret the natural world and widely trusted to help transform knowledge into power and profit. But are they morally different from other people? *The Scientific Life* is historian Steven Shapin's story about who scientists are, who we think they are, and why our sensibilities about such things matter. Conventional wisdom has long held that scientists are neither better nor worse than anyone else, that personal virtue does not necessarily accompany technical expertise, and that scientific practice is profoundly impersonal. Shapin, however, here shows how the uncertainties attending scientific research make the virtues of individual researchers intrinsic to scientific work. From the early twentieth-century

origins of corporate research laboratories to the high-flying scientific entrepreneurship of the present, Shapin argues that the radical uncertainties of much contemporary science have made personal virtues more central to its practice than ever before, and he also reveals how radically novel aspects of late modern science have unexpectedly deep historical roots. His elegantly conceived history of the scientific career and character ultimately encourages us to reconsider the very nature of the technical and moral worlds in which we now live. Building on the insights of Shapin's last three influential books, featuring an utterly fascinating cast of characters, and brimming with bold and original claims, *The Scientific Life* is essential reading for anyone wanting to reflect on late modern American culture and how it has been shaped.

Just Lots of Joy* have now been condensed into one volume. In this honest and engaging story, Fiona shares her personal experience of depression in the early years of marriage, followed by her conversion and healing. She goes on to tell the moving story of Roy's illness with cancer and subsequent death. Fiona speaks of the practical and spiritual problems she and Roy had to face but also shares the humorous moments and tells of the comfort they received from their faith, family and friends.

The Oxford Companion to Australian Cricket Richard I. Cashman, 1996 The Oxford Companion to Australian Cricket covers every aspect of a sport in which Australians have long excelled and which at various times has inspired and united the nation. No other book on Australian cricket offers such a combination of historical and statistical information and analytical commentary. For the first time cricket followers around the world will be able to access facts, statistics, biography and commentary within a single book. The Companion examines the origins and development of cricket in this country, the great personalities who have dominated the sport in the eyes of the world, and its important role in shaping sporting tradition and culture in Australia. Produced in association with the Australian Society for Sports History, the Companion is edited by six specialists with long and varied connections with the sport. It includes contributions by numerous writers around Australia,

including a dozen celebrity authors writing on aspects of the sport with which they are associated. There are entries on every cricketer who has represented Australia at Test level, male and female, as well as notable Shield players. These biographical entries also include full statistical data updated to 1995/96. Fifteen legendary cricketers - from Trumper and Bradman to Benaud and the Chappells - are considered in full-length essays of 1000 words or more. In addition, there are articles on great commentators (e.g. Alan McGilvray, Norman May), barrackers ('Yabba'), officials and entrepreneurs, coaches, politicians, umpires, scorers, writers and equipment makers. No-one who has made a significant contribution to Australian cricket is ignored. However, the Companion is not just a biographical work. Australia's seven Test grounds all rate individual entries, along with 30 other venues. Cricket being a highly institutionalised and traditional sport, space is devoted to the history and achievements of 50 major cricket clubs and institutions. Interspersed throughout the text are fifty entries covering bizarre, humorous and controversial events over the past 150 years. These include Dennis Lillee's aluminium bat affair, Terry Alderman's fateful encounter with an English fan in Perth, marathon innings and unforgettable hat-tricks, Aboriginal tours in the nineteenth century and Bradman's Invincibles almost a century later, tied Tests and stuffed swallow. Fondly recalled by cricket followers, these 'mood pieces' form one of the most entertaining features of an always accessible and readable Companion. The core of the Companion is its extended critical and analytical coverage of Australian cricket. Approximately one-third of the Companion is devoted to essay-length articles on major aspects of the sport and on our cricketing relations with every other cricket-playing country. Some of these thematic essays are listed below: The Ashes All-rounders Barrackers Bodyline Bradman Costume Country Week Crowds Ethnicity Film Gambling Humour Laws of Cricket Media Radio Rebel tours Sheffield Shield Sponsorship Television Umpires and umpiring Violence Women Readers of books on cricket insist on the most accurate and extensive statistical information. Considerable space is devoted in ours to individuals' statistics at the Test and state levels - matches played and captained, innings, not out, highest scores, total runs, centuries, batting averages, wickets, runs conceded, five wicket performances, bowling averages. Limited overs cricket is covered in full - both international and domestic. There is additional information about crowds, benefit matches, the World Cup, hat-tricks, length of overs, and throwing (33 recorded instances to date). For greater ease of access, most of this information accompanies individual entries on cricketers, but a statistical appendix will include all the facts about leading run scorers and wicket takers, leading wicket keepers and fielders, partnership records, highest and lowest innings totals, youngest and oldest players, highest individual innings, and tied matches. Finally, the Companion features 150 superb photographs of famous players, venues and events, plus an exhaustive bibliography.
