**Education, Economy & Society** Salim Vally, Enver Motale, 2014 Education, Economy & Society is a compelling and comprehensive antidote to the misconstrued nature of the relationship between education and society in South Africa. It provides a constructive critique of conventional discourses, but also alternative approaches to understanding the connections between education and the triple scourge of unemployment, inequality, and poverty. The book's contributors passionately argue that South African education finds its value and purpose in a focus on social justice, transformation, and democratic citizenship. The joy of education is to capture human imaginations and unleash their creativity towards a more humane and compassionate society. This rich resource explores the possibilities for a new pedagogy in post-school education and training through empirical research on skills, technology, and issues of employment on the shop floor; a critical analysis of the youth wage subsidy; and workers' education. The book will appeal to a wide audience including students and academics in the fields of industrial sociology, economics, adult education, further education and training, and those in youth development.

**Becoming a teacher** Josef de Beer, 2020-12-31 This book disseminates original research on learning in and from practice in pre-service teacher education. Authors such as Lederman and Lederman describe the student teaching practicum (or work-integrated learning [WIL]), which is an essential component of pre-service teacher education, as the 'elephant in the room'. These authors note that 'the capstone experience in any teacher education programme is the student teaching practicum... [a]fter all, this is where the rubber hits the road'. However, many teacher educators will agree that this WIL component is sometimes very insufficient in assisting the student teacher to develop their own footing and voice as a teacher.

This is the 'gap' that this research book addresses. Most of the chapters in the book report empirical data, with the exception of two chapters that can be categorized as systematic reviews. WIL is addressed from various angles in the chapters. Chapter 6 focuses on research related to what makes Finnish teacher education so effective, and in Chapter 4 researchers of the University of Johannesburg disseminate their findings on establishing a teaching school (based on Finnish insights) in Johannesburg. Chapter 3 highlights the challenges faced in open-and distance learning teacher education contexts. Several of the chapters disseminate research findings on alternative interventions to classic WIL, namely, where "safe spaces" or laboratories are created for student teachers to learn and grow professionally. These could either be simulations, such as software programmes and avatars in the intervention described in Chapter 2; student excursions, as the findings in chapters 5, 7 and 10 portray; or alternative approaches to WIL (e.g. Chapters 11 and 12). The book is devoted to scholarship in the field of pre-service teacher education. The target audience is scholars working in the fields of pre-service teacher education, work-integrated learning, and self-directed learning. The book makes a unique contribution in terms of firstly its extensive use of Cultural-Historical Activity Theory as a research lens, and secondly in drawing on various theoretical frameworks. Both quantitative and qualitative research informed the findings of the book.

**Contemporary African Art Since 1980** Okwui Enwezor, Chika Okeke-Agulu, 2009 [S]urvey of the work of contemporary African artists from diverse situations, locations, and generations who work either in or outside of Africa, but whose practices engage and occupy the social and cultural complexities of the continent since the past 30 years.... **Zulu Victory** Ron Lock, Peter Quantrill, 2015-11-19 "A densely detailed account of the 1879 Zulu defeat of the British . . . portrays a complex and interesting segment of British/African history."—Library Journal The battle of Isandlwana—a great Zulu victory—was one of the worst defeats ever to befall a British Army. At noon on 22 January 1879, a British camp, garrisoned by over 1700 troops, was attacked and overwhelmed by 20,000 Zulu warriors. The defeat of the British, armed with the most modern weaponry of the day, caused disbelief and outrage throughout Queen Victoria's England. The obvious culprit for the blunder was Lieutenant General Lord Chelmsford, the defeated commander. Appearing to respond to the outcry, he ordered a court of inquiry. But there followed a carefully conducted cover-up in which Chelmsford found a scapegoat in the dead—most notably, in Colonel Anthony Durnford. Using source material ranging from the Royal Windsor

Archives to the oral history passed down to the present Zulu inhabitants of Isandlwana, this gripping history exposes the full extent of the blunders of this famous battle and the scandal that followed. It also gives full credit to the masterful tactics of the 20,000 strong Zulu force and to Ntshingwayo kaMahole, for the way in which he comprehensively out-generalled Chelmsford. This is an illuminating account of one of the most embarrassing episodes in British military history and of a spectacular Zulu victory. The authors superbly weave the excitement of the battle, the British mistakes, the brilliant Zulu tactics and the shameful cover up into an exhilarating and tragic tale. "A must for anyone interested in the Zulu War. Highly recommended."—British Army Review

**Student Retention & Graduate Destination** Moeketsi Letseka, 2010 Student attrition has been a perennial theme in South African higher education throughout the decade. In its National Plan for Higher Education (2001), the Department of Education attributed high dropout rates primarily to financial and/or academic exclusions. Four years later, it reported that 30% of students dropped out in their first year of study and a further 20% during their second and third years. Against this backdrop, the erstwhile research programme on Human Resources Development initiated a research project to investigate more thoroughly why students dropped out, what led them to persist in higher education to graduation, and what made for a successful transition to the labour market. The chapters in this volume address these issues in relation to one or more of seven institutional case studies conducted in 2005.

**The Best Intentions** Institute of Medicine, Committee on Unintended Pregnancy, 1995-07-02 Experts estimate that nearly 60 percent of all U.S. pregnancies—and 81 percent of pregnancies among adolescents—are unintended. Yet the topic of preventing these unintended pregnancies has long been treated gingerly because of personal sensitivities and public controversies, especially the angry debate over abortion. Additionally, child welfare advocates long have overlooked the connection between pregnancy planning and the improved well-being of families and communities that results when children are wanted. Now, current issues—health care and welfare reform, and the new international focus on population—are drawing attention to the consequences of unintended pregnancy. In this climate *The Best Intentions* offers a timely exploration of family planning issues from a distinguished panel of experts. This committee sheds much-needed light on the questions and controversies surrounding unintended pregnancy. The book offers specific recommendations to put the United States on par with other developed nations in terms of contraceptive attitudes and policies, and it considers the effectiveness of over 20 pregnancy prevention programs. *The Best Intentions* explores problematic definitions—unintended versus unwanted versus mistimed—and presents data on pregnancy rates and trends. The book also summarizes the health and social consequences of unintended pregnancies, for both men and women, and for the children they bear. Why does unintended pregnancy occur? In discussions of reasons behind the rates, the book examines Americans' ambivalence about sexuality and the many other social, cultural, religious, and economic factors that affect our approach to contraception. The

committee explores the complicated web of peer pressure, life aspirations, and notions of romance that shape an individual's decisions about sex, contraception, and pregnancy. And the book looks at such practical issues as the attitudes of doctors toward birth control and the place of contraception in both health insurance and managed care. *The Best Intentions* offers frank discussion, synthesis of data, and policy recommendations on one of today's most sensitive social topics. This book will be important to policymakers, health and social service personnel, foundation executives, opinion leaders, researchers, and concerned individuals.

*Beyond the Apartheid Workplace* Eddie Webster, Karl Von Holdt, 2005 Has the apartheid workplace changed over the past ten years of democracy in South Africa? In order to answer this question, the contributors of this book studied seventeen different workplaces, including BMW, a state hospital, footwear sweatshops and the wine farming industry. The editors broaden the definition of work to cover studies of the informal economy, including street traders, homeworkers and small rural enterprises. *Beyond the Apartheid Workplace* shows how South Africa's triple transition-towards political democracy, economic liberalization and post-colonial transformation-has generated contradictory pressures at workplace levels. A wide range of managerial strategies and union responses are identified, demonstrating both continuities and discontinuities with past practices. These studies reveal a growing differentiation within the world of work between stable, formal-sector work, casualized and outsourced work, and informal work where people struggle to make a living on the margins of the formal economy. The majority of workplaces are marked by the persistence and reconfiguration of the apartheid legacy. Deepening poverty and exclusion have been generated among great numbers of workers and their dependents.

**Indigenous Language Media, Language Politics and Democracy in Africa** Abiodun Salawu, Monica Chibita, Sarantakos, 2015-10-26 This book deals with the often-neglected link between indigenous languages, media and democracy in Africa. It recognizes that the media plays an amplifying role that is vital to modern-day expression, public participation and democracy but that without the agency to harness media potential, many Africans will be excluded from public discourse.

*Isandlwana, 1879* Ian Knight, 2005 The battle of Isandlwana fought on January 22, 1879, was the greatest defeat suffered by the British Army during the Victorian era. A Zulu Army of 24,000 warriors had moved undetected to within striking distance of the British camp in the shadow of Isandlwana Mountain. From the start the 1,700 defenders underestimated the danger descending upon them. They were swept aside with horrifying speed and the final stage of the battle consisted of desperate hand-to-hand fighting amid the British camp. Ian Knight employs new archaeological and historical research to provide a completely new interpretation of the course of the battle.--BOOK JACKET.

*Warrior Chiefs of Southern Africa* Ian Knight, 1994

**Through the Eyes of an African Chef** Nompumelelo Mqwebu, 2018-06-20 This food-lover's delight presents exciting,

innovative recipes from a well-known figure in the culinary world. Enjoy uniquely presented traditional African cuisine with international flair, all tied together by the common element of ingredients that are organic, natural and sustainable. Elegantly produced with full colour photographs throughout.

*Myth of Iron* Dan Wylie, 2006 Over the decades we have heard a great deal about Shaka, the famous - or infamous - of Zulu leaders. It may come as a surprise, therefore, that we do not know when he was born, nor what he looked like, nor precisely when or why he was assassinated. This book lays out the available evidence - mainly hitherto under-utilised Zulu oral testimonies.

*Globalizing Education Policy* Fazal Rizvi, Bob Lingard, 2010 They also suggest that whilst in some countries these precepts are resisted, to some extent, they have nonetheless become hegemonic, and provide an overview of some critical issues in educational policy to which this hegemonic view of globalization has given rise.--BOOK JACKET.

**Handbook of Education Systems in South Asia** Padma M. Sarangapani, Rekha Pappu, 2021-08-29 This handbook is an important reference work in understanding education systems in the South Asia region, their development trajectory, challenges and potential. The handbook includes the SAARC (South Asian Association for Regional Cooperation) countries for discussion---Afghanistan, Pakistan, India, Nepal, Bhutan, Bangladesh, and Sri Lanka---while also considering countries such as Myanmar and the Maldives that have considerable shared history in the region. Such a comparative perspective is largely absent within the literature given the present paucity of intra-regional interaction. South Asian education systems are viewed primarily through a development lens in terms of inequalities, challenges and responses. However, the development of modern institutions of education and the challenges that it faces requires cultural and historical understanding of indigenous traditions as well as indigenous modern thinkers and education movements. Therefore, this encompassing reference work covers indigenous education traditions, formal education systems, including school and preschool education, higher and professional education, education financing systems and structures, teacher education systems, addressing huge linguistic and other diversities, and marginalization within the formal education system, and pedagogy and curricula. All the countries in this region have their own unique geographical, cultural, economic and political character and histories of interest and significance, and have responded to common issues such as overcoming the colonial legacy, language diversity, or girls' education, or minority rights in education, in uniquely different ways. The sections therefore include country-specific perspectives as far as possible to highlight these issues. Internationally renowned specialists of South Asian education systems have contributed to this important reference work, making it an invaluable resource for researchers and students of education interested in South Asia.

**The Story of South African Jazz** Struan Douglas, 2019 South African jazz is a unique and all inclusive channel of real freedom, touching down in all the major cities of South Africa and the world. The story draw from a network of spoken words,

interviews, articles, commentaries, anecdotes, mentorship, lived experiences and oral history of many music masters. The story of South African jazz describes an evolution and involution across five distinctive golden periods of social and self realisation.--Back cover.
