**Ten Arguments for Deleting Your Social Media Accounts Right Now** Jaron Lanier, 2018-05-29 AS SEEN IN THE NETFLIX DOCUMENTARY THE SOCIAL DILEMMA A WIRED ALL-TIME FAVORITE BOOK A FINANCIAL TIMES BEST BOOK THE CONSCIENCE OF SILICON VALLEY- GQ “Profound . . . Lanier shows the tactical value of appealing to the conscience of the individual. In the face of his earnest argument, I felt a piercing shame about my own presence on Facebook. I heeded his plea and deleted my account.” - Franklin Foer, The New York Times Book Review “Mixes prophetic wisdom with a simple practicality . . . Essential reading.” - The New York Times (Summer Reading Preview) You might have trouble imagining life without your social media accounts, but virtual reality pioneer Jaron Lanier insists that we’re better off without them. In *Ten Arguments for Deleting Your Social Media Accounts Right Now*, Lanier, who participates in no social media, offers powerful and personal reasons for all of us to leave these dangerous online platforms. Lanier’s reasons for freeing ourselves from social media’s poisonous grip include its tendency to bring out the worst in us, to make politics terrifying, to trick us with illusions of popularity and success, to twist our relationship with the truth, to disconnect us from other people even as we are more “connected” than ever, to rob us of our free will with relentless targeted ads. How can we remain autonomous in a

world where we are under continual surveillance and are constantly being prodded by algorithms run by some of the richest corporations in history that have no way of making money other than being paid to manipulate our behavior? How could the benefits of social media possibly outweigh the catastrophic losses to our personal dignity, happiness, and freedom? Lanier remains a tech optimist, so while demonstrating the evil that rules social media business models today, he also envisions a humanistic setting for social networking that can direct us toward a richer and fuller way of living and connecting with our world.

*Digital Minimalism* Cal Newport, 2019-02-05 A New York Times, Wall Street Journal, Publishers Weekly, and USA Today bestseller Newport is making a bid to be the Marie Kondo of technology: someone with an actual plan for helping you realize the digital pursuits that do, and don't, bring value to your life.--Ezra Klein, Vox Minimalism is the art of knowing how much is just enough. Digital minimalism applies this idea to our personal technology. It's the key to living a focused life in an increasingly noisy world. In this timely and enlightening book, the bestselling author of *Deep Work* introduces a philosophy for technology use that has already improved countless lives. Digital minimalists are all around us. They're the calm, happy people who can hold long conversations without furtive glances at their phones. They can get lost in a good book, a woodworking project, or a leisurely morning run. They can have fun with friends and family without the obsessive urge to document the experience. They stay informed about the news of the day, but don't feel overwhelmed by it. They don't experience fear of missing out because they already know which activities provide them meaning and satisfaction. Now, Newport gives us a name for this quiet movement, and makes a persuasive case for its urgency in our tech-saturated world. Common sense tips, like turning off notifications, or occasional rituals like observing a digital sabbath, don't go far enough in helping us take back control of our technological lives, and attempts to unplug completely are complicated by the demands of family, friends and work. What we need instead is a thoughtful method to decide what tools to use, for what purposes, and under what conditions. Drawing on a diverse array of real-life examples, from Amish farmers to harried parents to Silicon Valley programmers, Newport identifies the common practices of digital minimalists and the ideas that underpin them. He shows how digital minimalists are rethinking their relationship to social media, rediscovering the pleasures of the offline

world, and reconnecting with their inner selves through regular periods of solitude. He then shares strategies for integrating these practices into your life, starting with a thirty-day digital declutter process that has already helped thousands feel less overwhelmed and more in control. Technology is intrinsically neither good nor bad. The key is using it to support your goals and values, rather than letting it use you. This book shows the way.

**Art & Fear** David Bayles, Ted Orland, 2023-02-09 'I always keep a copy of Art & Fear on my bookshelf' JAMES CLEAR, author of the #1 best-seller Atomic Habits 'A book for anyone and everyone who wants to face their fears and get to work' DEBBIE MILLMAN, author and host of the podcast Design Matters 'A timeless cult classic ... I've stolen tons of inspiration from this book over the years and so will you' AUSTIN KLEON, NYTimes bestselling author of Steal Like an Artist 'The ultimate pep talk for artists. ... An invaluable guide for living a creative, collaborative life.' WENDY MACNAUGHTON, illustrator Art & Fear is about the way art gets made, the reasons it often doesn't get made, and the nature of the difficulties that cause so many artists to give up along the way. Drawing on the authors' own experiences as two working artists, the book delves into the internal and external challenges to making art in the real world, and shows how they can be overcome every day. First published in 1994, Art & Fear quickly became an underground classic, and word-of-mouth has placed it among the best-selling books on artmaking and creativity. *Musicians in the Making* John Scott Rink, Helena Gaunt, Aaron Williamson, 2017 Musicians are continually 'in the making', tapping into their own creative resources while deriving inspiration from teachers, friends, family members and listeners. Amateur and professional performers alike tend not to follow fixed routes in developing a creative voice: instead, their artistic journeys are personal, often without foreseeable goals. The imperative to assess and reassess one's musical knowledge, understanding and aspirations is nevertheless a central feature of life as a performer. *Musicians in the Making* explores the creative development of musicians in both formal and informal learning contexts. It promotes a novel view of creativity, emphasizing its location within creative processes rather than understanding it as an innate quality. It argues that such processes may be learned and refined, and furthermore that collaboration and interaction within group contexts carry significant potential to inform and catalyze creative experiences and outcomes. The book also traces and models the ways in which creative processes evolve over time. Performers, music teachers and researchers will find the rich body of material assembled here engaging and enlightening. The book's three parts focus in turn on 'Creative learning in context', 'Creative processes' and 'Creative dialogue and reflection'. In addition to sixteen extended chapters written by leading experts in the

field, the volume includes ten 'Insights' by internationally prominent performers, performance teachers and others. Practical aids include abstracts and lists of keywords at the start of each chapter, which provide useful overviews and guidance on content. Topics addressed by individual authors include intrapersonal and interpersonal dynamics, performance experience, practice and rehearsal, 'self-regulated performing', improvisation, self-reflection, expression, interactions between performers and audiences, assessment, and the role of academic study in performers' development.

**Creative Placemaking** Cara Courage, Anita McKeown, 2018-10-03 This book makes a significant contribution to the history of placemaking, presenting grassroots to top-down practices and socially engaged, situated artistic practices and arts-led spatial inquiry that go beyond instrumentalising the arts for development. The book brings together a range of scholars to critique and deconstruct the notion of creative placemaking, presenting diverse case studies from researcher, practitioner, funder and policymaker perspectives from across the globe. It opens with the creators of the 2010 White Paper that named and defined creative placemaking, Ann Markusen and Anne Gadwa Nicodemus, who offer a critically reflexive narrative on the founding of the sector and its development. This book looks at vernacular creativity in place, a topic continued through the book with its focus on the practitioner and community-placed projects. It closes with a consideration of aesthetics, metrics and, from the editors, a consideration of the next ten years for the sector. If creative placemaking is to contribute to places-in-the-making and encourage citizen-led agency, new conceptual frameworks and practical methodologies are required. This book joins theorists and practitioners in dialogue, advocating for transdisciplinary, resilient processes.
