Latvian-English Dictionary Leonard Zusne, 2008-07-30 This unabridged work includes a previously distributed DICTIONARY OF LATVIAN PROVERBS, making it unique and more attractive than similar publications. A translating dictionary, like this one, is a practical dictionary that translates words in existing texts. It does not, as a rule, provide descriptions or explanations, nor does it set norms of how words should be spelled. The aim of dictionary users can be either to understand the source language (the language of the headwords) or to translate it into the target language (the language of the translation equivalents). The user's first language can be either the source language or the target language. This makes for four possible types of interlingual dictionaries (descriptive, prescriptive, or translating). Existing Latvian-English dictionaries indicate that they are intended for users whose first language is Latvian and whose purpose is to translate it into English. This dictionary is intended primarily for users whose first language is English and who wish to understand texts written in Latvian. This, of course, does not preclude Latvian speakers from using it to translate from Latvian into English, i.e., to produce English texts. English-speaking Latvians may, in fact, find it helpful for accurate and natural translation. Other features of this dictionary are: the number of entries (over 106,000), which is more than double that of any other Latvian-English dictionary; the use of American rather than British English; an extensive coverage of technical terms from all fields of science and technology; the comprehensive inclusion of spelling variants; and the inclusion of colloquialisms, common speech words, vulgar terms, slang, barbarisms, selected regionalisms, and terms found in folkloric language. [A dictionary of Latvian proverbs is included in the back. The entries of this dictionary were collected from various extant monolingual and bilingual Latvian dictionaries, general and specialized: spelling dictionaries, technical dictionaries, etymological dictionaries, general encyclopedias, periodical literature, and many Latvian speakers. Of the latter, I want to single out the contribution of the late sea captain, Inats Lejnieks. In his time, the captain had commanded full-rigged sailing ships with Latvian crews, and he supplied the Latvian equivalents of the names of sails and principal ropes, spars, and part of the hull. I was fortunate to have captain Lejnieks share his expertise with me as this material was not available anywhere else.

Maltese Marie Azzopardi-Alexander,Albert Borg,2013-04-15 Focusing primarily on Standard Maltese, the authors clarify many areas which, until now, remain undefined, with emphasis on syntax and intonation. English loanwords continue to find their way into Standard Maltese, especially as the Maltese inhabitants become increasingly bilingual, and the variations are studied, as well as their morphological behavior. The book describes the syntactic, morphological and phonological structure of Maltese as one integrated linguistic system composed of different strands (Arabic, Romance and English).

Constitutional Law in Malta Kevin Aquilina,2018-02-27 Derived from the renowned multi-volume International Encyclopaedia of Laws, this very useful analysis of constitutional law in Malta provides essential information on the country's sources of constitutional law, its form of government, and its administrative structure. Lawyers who handle transnational matters will appreciate the clarifications of particular terminology and its application. Throughout the book, the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure. Thorough coverage by a local expert fully describes the political system, the historical background, the role of treaties, legislation, jurisprudence, and administrative regulations. The discussion of the form and structure of government outlines its legal status, the jurisdiction and workings of the central state organs, the subdivisions of the state, its decentralized authorities, and concepts of citizenship. Special issues include the legal position of aliens, foreign relations, taxing and spending powers, emergency laws, the power of the military, and the constitutional relationship between church and state. Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp

their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for both practising and academic jurists. Lawyers representing parties with interests in Malta will welcome this guide, and academics and researchers will appreciate its value in the study of comparative constitutional law.

Miscellanea Arabica Et Islamica F. de Jong, 1993 The volume contains twenty contributions to the fields of Arabic Linguistics, Islamic Law, and Arabic and Islamic thought. These are edited and often revised and enlarged versions of papers which were originally presented at the 15th Congress of the Union Europeenne des Arabisants et Islamisants, held at the University of Utrecht in September 1990. They were selected for publication in this volume because of their originality and substance. The diversity and richness of this collection reflects the scope of research in the fields of Arabic and Islamic studies in Europe today.

The different aspects of islamic culture UNESCO, 2011-12-31 Islamic culture, which is still vigorous in spite of its great antiquity, set out to develop side by side a vision of the individual and of the universe, a philosophy and an art of living that can be seen in the impressive remains of its heritage that is an essential part of the whole of humankind's. Halted for a time by adverse historical conditions, this culture none the less found the strength within itself to re-emerge. Its fidelity to its roots does not prevent it from keeping up with the times and participating in contemporary forums and the stirring dialogue of cultures. This series of volumes on the manifold facets of Islamic culture is intended to acquaint a very wide public with such matters as: the theological bases of the faith and principles that constitute the bedrock of the overall structure; the status of the individual and of society in the Islamic world; the expansion of Islam since the Revelation: the Arab, Asian, African and European spheres espousing the new faith and the way in which the rights of converted peoples have been upheld; the vital contribution of Islamic civilization to the adventure of human knowledge in science and technology; the educational and cultural manifestations of Islamic civilization in literature, the visual arts and architecture; finally, Islam today between loyalty to its past and the inescapable conquest of modernity.
