Still Counting the Dead Frances Harrison, 2012-09-20 An extraordinary book. This dignified, just and unbearable account of the dark heart of Sri Lanka needs to be read by everyone. — Roma Tearne, author of *Mosquito* The tropical island of Sri Lanka is a paradise for tourists, but in 2009 it became a hell for its Tamil minority, as decades of civil war between the Tamil Tiger guerrillas and the government reached its bloody climax. Caught in the crossfire were hundreds of thousands of schoolchildren, doctors, farmers, fishermen, nuns, and other civilians. And the government ensured through a strict media blackout that the world was unaware of their suffering. Now, a UN enquiry has called for war crimes investigation, and Frances Harrison, a BBC correspondent for Sri Lanka during the conflict, recounts those crimes for the first time in sobering, shattering detail.

Genocide and Mass Violence in Asia Frank Jacob, 2019-08-05 In Asia the Age of Extremes witnessed many forms of mass violence and genocide, related to the rise and fall of the Japanese Empire, the proxy wars of the Cold War, and the anti-colonial nation building processes that often led to new conflicts and civil wars. The present volume is considered an introductory reader that deals with different forms of mass violence and genocide in Asia, discusses the perspectives of victims and perpetrators alike.

Echoes of Empire Kalypso Nicolaïdis, Berny Sebe, Gabrielle Maas, 2014-12-23 How does our colonial past echo through today's global politics? How have former empire-builders sought vindication or atonement, and formerly colonized states reversal or retribution? This groundbreaking book presents a panoramic view of attitudes to empires past and present, seen not only through the hard politics of international power structures but also through the nuances of memory, historiography and national and minority cultural identities. Bringing together leading historians, political scientists and international relations scholars from across the globe, *Echoes of Empire* emphasizes Europe's colonial legacy whilst also highlighting the importance of non-European power centres- Ottoman, Russian, Chinese, Japanese- in shaping world politics, then and now. *Echoes of Empire* bridges the divide between disciplines to trace the global routes travelled by objects, ideas and people and forms a radically different notion of the term 'empire' itself. This will be an essential companion to courses on international

relations and imperial history as well as a fascinating read for anyone interested in Western hegemony, North-South relations, global power shifts and the *longue duree*.

War and Secession Richard Sisson, Leo E. Rose, 2023-04-28 A decade after the 1971 wars in South Asia, the principal decisionmakers were still uncertain why wars so clearly unwanted had occurred. The authors reconstruct the complex decisionmaking process attending the break-up of Pakistan and the subsequent war between India and Pakistan. Much of their data derive from interviews conducted with principal players in each of the countries immediately involved-Pakistan, India, and Bangladesh-including Indira Gandhi and leaders of the Awami League in Bangladesh. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990. The Dead Hand David Hoffman, 2010-08-03 WINNER OF THE PULITZER PRIZE The first full account of how the Cold War arms race finally came to a close, this riveting narrative history sheds new light on the people who struggled to end this era of massive overkill, and examines the legacy of the nuclear, chemical, and biological weapons that remain a threat today. Drawing on memoirs, interviews in both Russia and the US, and classified documents from deep inside the Kremlin, David E. Hoffman examines the inner motives and secret decisions of each side and details the deadly stockpiles that remained unsecured as the Soviet Union collapsed. This is the fascinating story of how Reagan, Gorbachev, and a previously unheralded collection of scientists, soldiers, diplomats, and spies changed the course of history.

Money, Energy and Welfare Sarmila Bose, 1993 Sarmila Bose examines rural electrification in India in the context of the technological transformation of rural economies in developing countries. The book investigates rural electrification policy in India at three levels: the level of the state, the household, and the individual; and makes clear recommendations for policy

change at each level.

1971 Anam Zakaria,2019-12-16 The year 1971 exists everywhere in Bangladesh-on its roads, in sculptures, in its museums and oral history projects, in its curriculum, in people's homes and their stories, and in political discourse. It marks the birth of the nation, its liberation. More than 1000 miles away, in Pakistan too, 1971 marks a watershed moment, its memories sitting uncomfortably in public imagination. It is remembered as the 'Fall of Dacca', the dismemberment of Pakistan or the third Indo-Pak war. In India, 1971 represents something else-the story of humanitarian intervention, of triumph and valour that paved the way for India's rise as a military power, the beginning of its journey to becoming a regional superpower. Navigating the widely varied terrain that is 1971 across Pakistan, Bangladesh and India, Anam Zakaria sifts through three distinct state narratives, and studies the institutionalization of the memory of the year and its events. Through a personal journey, she juxtaposes state narratives with people's history on the ground, bringing forth the nuanced experiences of those who lived through the war. Using intergenerational interviews, textbook analyses, visits to schools and travels to museums and sites commemorating 1971, Zakaria explores the ways in which 1971 is remembered and forgotten across countries, generations and communities.

Fearing the Worst Samuel F. Wells, Jr.,2019 Fearing the Worst explains how the Korean War fundamentally changed postwar competition between the United States and the Soviet Union into a militarized confrontation that would last decades. Samuel F. Wells Jr. examines how military and political events interacted to escalate the conflict.

A System of Life Jan-Peter Hartung,2014 While much current research on political Islam revolves around militant Islamism, the genesis of this ideology remains little understood. A System of Life is a pioneering examination of the earliest attempt at a systematic outline of Islamist ideology, namely that proposed in the 1930s and early 1940s by the renowned Indo-Muslim intellectual Sayyid Abu'l-A'la Mawdudi. Hartung reconstructs his thought in the light of the competing ideologies at play at the time, especially his claim to recast Islam as an all-comprehensive, self-contained and inner-worldly system of life. His analysis is embedded in an understanding of the history of ideas that assumed increasingly global dimensions through colonial encounters. By showing how Mawdudi -- depicted as a major protagonist of this development - attempted to align elements of Western philosophical thought with selected traditional Islamic ideas and concepts, 'Islamism' is established as an Islamic contribution to a universalistic notion of modernity. Along with offering a detailed portrayal of Mawdudi's system of thought, Hartung also discusses the reception and modification of his ideas in the Middle East, predominantly among intellectuals of the Egyptian Muslim Brotherhood, and among their imitators in postcolonial South Asia.

Bangladesh Ali Riaz,2016-06-08 Bangladesh is a country of paradoxes. The eighth most populous country of the world, it

has attracted considerable attention from the international media and western policy-makers in recent years, often for the wrong reasons: corruption, natural disasters caused by its precarious geographical location, and volatile political situations with several military coups, following its independence from Pakistan in 1971. Institutional corruption, growing religious intolerance and Islamist militancy have reflected the weakness of the state and undermined its capacity. Yet the country has demonstrated significant economic potential and has achieved successes in areas such as female education, population control and reductions in child mortality. Ali Riaz here examines the political processes which engendered these paradoxical tendencies, taking into account the problems of democratization and the effects this has had, and will continue to have, in the wider South Asian region. This comprehensive and unique overview of political and historical developments in Bangladesh since 1971 will provide essential reading for observers of Bangladesh and South Asia.

A History of Pakistan Roger D. Long, 2015 Although Pakistan may be a new state in an historical context, it possesses an ancient legacy and culture. This volume examines the history of Pakistan from its archaeological heritage and origins in the Islamic civilization in South Asia to its political, economic, and social characteristics since 1947. The dynamics of its volatile history have been conditioned by its chequered constitutional development. It has produced vivid and forceful leaders, both civilian and military, from the Bhuttos-Zulfikar Ali and his daughter Benazir to the string of military rulers who have governed the country, namely, Ayub Khan, Yahya Khan, Zia ul-Haq, and the last military dictator, Pervez Musharraf. Religious and class differences and regional forces tear at the fabric of the nation and hinder the development of a stable democratic regime. In spite of these persistent retrograde forces, there is a remarkable commitment among the progressives and the educated of the country to move it forward. Pakistan possesses a remarkable history through its interplay of regional and economics forces, through wars and civil wars, through being a 'Front-Line State', and through nuclear confrontations in the form of nuclear tests performed by Pakistan as well as its neighbour India. This volume is a rich and authoritative guide to those turbulent decades as well as to the history of the Indian subcontinent.
