The Last Lecture Randy Pausch, Jeffrey Zaslow, 2008 A lot of professors give talks titled 'The Last Lecture'. Professors are asked to consider their demise and to ruminate on what matters most to them: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave, 'Really Achieving Your Childhood Dreams', wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humour, inspiration, and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

The Political Economy of Global Security Heikki Patomäki,2007-11-28 What are the possibilities for and conditions of global security in the 21st century? This book provides an innovative study of future wars, crises and transformations of the global political economy. It brings together economic theory, political economy, peace and conflict research, philosophy and historical analogy to explore alternatives for the future. Patomäki develops a bold, original and thought provoking political economy analysis of the late 20th century neo-liberalisation and globalisation and their real effects, which he describes as a 21st century version imperialism. In order for us to understand global security and to anticipate the potential threats and crises, he argues that a holistic understanding and explanation of history is necessary and demonstrates that a systematic causal analysis of structures and processes is required. Putting this theory into practice, Patomäki constructs a comparative explanatory model which traces the rise of imperialism in the late 19th century and culminated in the First World War. He argues that even a partial return to the 19th century ideals and practices is very likely to be highly counterproductive in the 21st century world and could become a recipe for a major global catastrophe. This book will be of interest to students and scholars of international relations, globalization studies, politics, economics and security studies.
