## Irvin D. Yalom

**Love's Executioner** Irvin D. Yalom, 2012-06-05 A NEW YORK TIMES BEST SELLER An “utterly absorbing” collection of ten classic tales from the therapist’s chair by renowned psychiatrist and best-selling author Irvin D. Yalom (Newsday) Why was Saul tormented by three unopened letters from Stockholm? What made Thelma spend her whole life raking over a long-past love affair? How did Carlos's macho fantasies help him deal with terminal cancer? In this engrossing book, Irvin Yalom gives detailed and deeply affecting accounts of his work with these and seven other patients. Deep down, all of them were suffering from the basic human anxieties— isolation, fear of death or freedom, a sense of the meaninglessness of life—that none of us can escape completely. And yet, as the case histories make touchingly clear, it is only by facing such anxieties head on that we can hope to come to terms with them and develop. Throughout, Dr. Yalom remains refreshingly frank about his own errors and prejudices; his book provides a rare glimpse into the consulting room of a master therapist.

**Momma And The Meaning Of Life** Irvin D. Yalom, 2014-03-25 As the public grows disillusioned with therapeutic quick fixes, people are looking for a deeper psychotherapeutic experience to make life more meaningful and satisfying. What really happens in therapy? What promises and perils does it hold for them? No one writes about therapy - or indeed the dilemmas of the human condition - with more acuity, style, and heart than Irvin Yalom. Here he combines the storytelling skills so widely praised in Love's Executioner with the wisdom of the compassionate and fully engaged psychotherapist. In these six compelling tales of therapy, Yalom introduces us to an unforgettable cast of characters: Paula, who faces death and stares it down; Magnolia, into whose ample lap Yalom longs to pour his own sorrows; Irene, who learns to seek out anger and plunge into it. And there's Momma, old-fashioned, ill-tempered, who drifts into Yalom's dreams and tramples through his thoughts. At once wildly entertaining and deeply thoughtful, Momma and the Meaning of Life is a work of rare insight and imagination.

**The Gift of Therapy** Irvin Yalom, 2013-05-21 Acclaimed author and renowned psychiatrist Irvin D. Yalom distills thirty-five years of psychotherapy wisdom into one brilliant volume. The culmination of master psychiatrist Dr. Irvin D. Yalom’s more than thirty-five years in clinical practice, The Gift of Therapy is a remarkable and essential guidebook that illustrates through real case studies how patients and therapists alike can get the most out of therapy. The bestselling author of Love’s Executioner shares his uniquely fresh approach and the valuable insights he has gained—presented as eighty-five personal and provocative “tips for beginner therapists,” including: •Let the patient matter to you •Acknowledge your errors •Create a

new therapy for each patient •Do home visits •(Almost) never make decisions for the patient •Freud was not always wrong A book aimed at enriching the therapeutic process for a new generation of patients and counselors, Yalom's Gift of Therapy is an entertaining, informative, and insightful read for anyone with an interest in the subject.

**Mammographies** Mary K. DeShazer,2018-05-09 While breast cancer continues to affect the lives of millions, contemporary writers and artists have responded to the ravages of the disease in creative expression. Mary K. DeShazer's book looks specifically at breast cancer memoirs and photographic narratives, a category she refers to as mammographies, signifying both the imaging technology by which most Western women discover they have this disease and the documentary imperatives that drive their written and visual accounts of it. Mammographies argues that breast cancer narratives of the past ten years differ from their predecessors in their bold address of previously neglected topics such as the link between cancer and environmental carcinogens, the ethics and efficacy of genetic testing and prophylactic mastectomy, and the shifting politics of prosthesis and reconstruction. Mammographies is distinctive among studies of contemporary illness narratives in its exclusive focus on breast cancer, its analysis of both memoirs and photographic texts, its attention to hybrid and collaborative narratives, and its emphasis on ecological, genetic, transnational, queer, and anti-pink discourses. DeShazer's methodology—best characterized as literary critical, feminist, and interdisciplinary—includes detailed interpretation of the narrative strategies, thematic contours, and visual imagery of a wide range of contemporary breast cancer memoirs and photographic anthologies. The author explores the ways in which the narratives constitute a distinctive testimonial and memorial tradition, a claim supported by close readings and theoretical analysis that demonstrates how these narratives question hegemonic cultural discourses, empower reader-viewers as empathic witnesses, and provide communal sites for mourning, resisting, and remembering.

*Becoming Myself* Irvin D. Yalom,2017-10-03 Bestselling writer and psychotherapist Irvin D. Yalom puts himself on the couch in a "candid, insightful" (Abraham Verghese) memoir Irvin D. Yalom has made a career of investigating the lives of others. In this profound memoir, he turns his writing and his therapeutic eye on himself. He opens his story with a nightmare: He is twelve, and is riding his bike past the home of an acne-scarred girl. Like every morning, he calls out, hoping to befriend her, Hello Measles! But in his dream, the girl's father makes Yalom understand that his daily greeting had hurt her. For Yalom, this was the birth of empathy; he would not forget the lesson. As *Becoming Myself* unfolds, we see the birth of the insightful thinker whose books have been a beacon to so many. This is not simply a man's life story, Yalom's reflections on his life and development are an invitation for us to reflect on the origins of our own selves and the meanings of our lives.

**Manual of Regulation-Focused Psychotherapy for Children (RFP-C) with Externalizing Behaviors** Leon Hoffman,Timothy Rice,Tracy Prout,2015-09-25 Manual of Regulation-Focused Psychotherapy for Children (RFP-C) with Externalizing Behaviors: A Psychodynamic Approach offers a new, short term psychotherapeutic approach to working

dynamically with children who suffer from irritability, oppositional defiance and disruptiveness. RFP-C enables clinicians to help by addressing and detailing how the child's externalizing behaviors have meaning which they can convey to the child. Using clinical examples throughout, Hoffman, Rice and Prout demonstrate that in many dysregulated children, RFP-C can: Achieve symptomatic improvement and developmental maturation as a result of gains in the ability to tolerate and metabolize painful emotions, by addressing the crucial underlying emotional component. Diminish the child's use of aggression as the main coping device by allowing painful emotions to be mastered more effectively. Help to systematically address avoidance mechanisms, talking to the child about how their disruptive behavior helps them avoid painful emotions. Facilitate development of an awareness that painful emotions do not have to be so vigorously warded off, allowing the child to reach this implicit awareness within the relationship with the clinician, which can then be expanded to life situations at home and at school. This handbook is the first to provide a manualized, short-term dynamic approach to the externalizing behaviors of childhood, offering organizing framework and detailed descriptions of the processes involved in RFP-C. Supplying clinicians with a systematic individual psychotherapy as an alternative or complement to PMT, CBT and psychotropic medication, it also shifts focus away from simply helping parents manage their children's misbehaviors. Significantly, the approach shows that clinical work with these children is compatible with understanding the children's brain functioning, and posits that contemporary affect-oriented conceptualizations of defense mechanisms are theoretically similar to the neuroscience construct of implicit emotion regulation, promoting an interface between psychodynamics and contemporary academic psychiatry and psychology. *Manual of Regulation-Focused Psychotherapy for Children (RFP-C) with Externalizing Behaviors: A Psychodynamic Approach* is a comprehensive tool capable of application at all levels of professional training, offering a new approach for psychoanalysts, child and adolescent counselors, psychotherapists and mental health clinicians in fields including social work, psychology and psychiatry.

*Writing the Talking Cure* Jeffrey Berman, 2019-05-01 Explores Yalom's profound contributions to psychotherapy and literature. A distinguished psychiatrist and psychotherapist, Irvin D. Yalom is also the United States' most well-known author of psychotherapy tales. His first volume of essays, *Love's Executioner*, became an immediate best seller, and his first novel, *When Nietzsche Wept*, continues to enjoy critical and popular success. Yalom has created a subgenre of literature, the "therapy story," where the therapist learns as much as, if not more than, the patient; where therapy never proceeds as expected; and where the therapist's apparent failure proves ultimately to be a success. *Writing the Talking Cure* is the first book to explore all of Yalom's major writings. Taking an interdisciplinary approach, Jeffrey Berman comments on Yalom's profound contributions to psychotherapy and literature and emphasizes the recurrent ideas that unify his writings: the importance of the therapeutic relationship, therapist transparency, here-and-now therapy, the prevalence of death anxiety, reciprocal healing, and the idea of the wounded healer. Throughout, Berman discusses what Yalom can teach therapists in

particular and the common (and uncommon) reader in general. “As a psychiatrist who has benefitted enormously not only from Yalom’s writings but also from his mentorship, I admire Berman’s relationship to his subject. They both write lucidly and imaginatively, inviting the reader to accompany them on a personal journey that is intriguing but intellectually rigorous. Reading this book helps me to better understand Yalom’s dual roles—as brilliant psychotherapist/teacher and compelling novelist. Berman’s book-by-book examination of Yalom’s work illustrates how good therapy involves facing reality, and good fiction involves making stories come alive by resonating with the hard truths of life. He is the perfect guide to Yalom, capturing his wisdom and creativity with respect and clarity.” — David Spiegel, author of *Living Beyond Limits: New Hope and Help for Facing Life-Threatening Illness* “This is a convincing celebration of and commentary on one of the most prominent psychotherapists of the last century. For anyone interested in the popularization of an idiosyncratic form of existential psychotherapy for individuals and groups, this will be an important book.” — Murray Schwartz, Emerson College “In this richly textured book, Berman takes us backstage in a warm and skillful exploration of Irvin Yalom’s unmatched contributions as a psychotherapist, author, and educator. We are provided a transparent view of how human healing emerges from our talking, writing, and reading. Berman reminds us eloquently that psychotherapy is, at its essence, the process of human connection and the joint attribution of meaning to experience.” — Molyn Leszcz, The University of Toronto

*Existential Psychotherapy* Irvin D. Yalom, 2020-03-17 The definitive account of existential psychotherapy. First published in 1980, *Existential Psychotherapy* is widely considered to be the foundational text in its field— the first to offer a methodology for helping patients to develop more adaptive responses to life’s core existential dilemmas. In this seminal work, American psychiatrist Irvin Yalom finds the essence of existential psychotherapy and gives it a coherent structure, synthesizing its historical background, core tenets, and usefulness to the practice. Organized around what Yalom identifies as the four ultimate concerns of life—death, freedom, isolation, and meaninglessness—the book takes up the meaning of each existential concern and the type of conflict that springs from our confrontation with each. He shows how these concerns are manifest in personality and psychopathology, and how treatment can be helped by our knowledge of them. Drawing from clinical experience, empirical research, philosophy, and great literature, Yalom provides an intellectual home base for those psychotherapists who have sensed the incompatibility of orthodox theories with their own clinical experience, and opens new doors for empirical research. The fundamental concerns of therapy and the central issues of human existence are woven together here as never before, with intellectual and clinical results that have surprised and enlightened generations of readers.

**Every Day Gets a Little Closer** Irvin D. Yalom, Ginny Elkin, 2008-08-01 The many thousands of readers of the best-selling *Love's Executioner* will welcome this paperback edition of an earlier work by Dr. Irvin Yalom, written with Ginny Elkin, a pseudonymous patient whom he treated -- the first book to share the dual reflections of psychiatrist and patient.

Ginny Elkin was a troubled young and talented writer whom the psychiatric world had labeled as schizoid. After trying a variety of therapies, she entered into private treatment with Dr. Irvin Yalom at Stanford University. As part of their work together, they agreed to write separate journals of each of their sessions. *Every Day Gets a Little Closer* is the product of that arrangement, in which they alternately relate their descriptions and feelings about their therapeutic relationship.

*The Course of Love* Alain de Botton, 2016-06-14 “An engrossing tale [that] provides plenty of food for thought” (People, Best New Books pick), this playful, wise, and profoundly moving second novel from the internationally bestselling author of *How Proust Can Change Your Life* tracks the beautifully complicated arc of a romantic partnership. We all know the headiness and excitement of the early days of love. But what comes after? In Edinburgh, a couple, Rabih and Kirsten, fall in love. They get married, they have children—but no long-term relationship is as simple as “happily ever after.” *The Course of Love* explores what happens after the birth of love, what it takes to maintain, and what happens to our original ideals under the pressures of an average existence. We see, along with Rabih and Kirsten, the first flush of infatuation, the effortlessness of falling into romantic love, and the course of life thereafter. Interwoven with their story and its challenges is an overlay of philosophy—an annotation and a guide to what we are reading. As *The New York Times* says, “*The Course of Love* is a return to the form that made Mr. de Botton’s name in the mid-1990s....love is the subject best suited to his obsessive aphorizing, and in this novel he again shows off his ability to pin our hopes, methods, and insecurities to the page.” This is a Romantic novel in the true sense, one interested in exploring how love can survive and thrive in the long term. The result is a sensory experience—fictional, philosophical, psychological—that urges us to identify deeply with these characters and to reflect on his and her own experiences in love. Fresh, visceral, and utterly compelling, *The Course of Love* is a provocative and life-affirming novel for everyone who believes in love. “There’s no writer alive like de Botton, and his latest ambitious undertaking is as enlightening and humanizing as his previous works” (Chicago Tribune).

Being in Contact: Encountering a Bare Body Mariella Greil, 2021-03-22 Dieses choreografierte Buch widmet sich dem Phänomen des bloßen Körpers in der zeitgenössischen Performance. Die künstlerische Forschung stützt sich dabei auf einen philosophischen, biopolitischen und ethischen Diskurs, der für die Erscheinung bloßer Körper in der choreografischen Arbeit relevant ist und der einen Rahmen setzt für eine reflexive Bewegung zwischen Affekt und Ethik, sinnlicher Ansprache und Response. Entblößungs- und Verschleierungshandlungen werden dabei kulturell verankert und in ihrer methodischen und nanopolitischen Bedeutung untersucht. Die Konzepte anarchische Verantwortung und Choreo-Ethik führen zu einer Neubewertung von Kontakt, Beziehung und Solidarität. Choreografie wird so als komplexes Feld von Offenbarungen verstanden, das auf Ökologien von Wahrnehmung und Handlungsfreiheit beruht.

**All the Lives We Never Lived** Anuradha Roy, 2018-05-14 War, nationalism, and trees shape lives in unforeseeable ways in this novel about a family and a country struggling with enormous transformations. ‘In my childhood, I was known as the

boy whose mother had run off with an Englishman' – so begins the story of Myshkin and his mother, Gayatri, who is driven to rebel against tradition and follow her artist's instinct for freedom. Freedom of a different kind is in the air across India. The fight against British rule is reaching a critical turn. The Nazis have come to power in Germany. At this point of crisis, two strangers arrive in Gayatri's town, opening up to her the vision of other possible lives. What took Myshkin's mother from India to Dutch-held Bali in the 1930s, ripping a knife through his comfortingly familiar universe? Excavating the roots of the world in which he was abandoned, Myshkin comes to understand the connections between the anguish at home and a war-torn universe overtaken by patriotism. Anuradha Roy's deeply moving novel tells the story of men and women trapped in a dangerous era uncannily similar to the present. Its scale is matched by its power as a parable for our times.

**Creatures of a Day** Irvin D. Yalom, 2015-02-24 The publication of *Creatures of a Day* is reason to celebrate. -- Steven Pinker In this stunning collection of stories, renowned psychiatrist Irvin D. Yalom describes his patients' struggles -- as well as his own -- to come to terms with the two great challenges of existence: how to have a meaningful life yet reckon with its inevitable end. We meet a nurse who must stifle the pain of losing her son in order to comfort her patients' pains, a newly minted psychologist whose studies damage her treasured memories of a lost friend, and a man whose rejection of psychological inquiry forces even Yalom himself into a crisis of confidence. *Creatures of a Day* is a radically honest statement about the difficulties of human life, but also a celebration of some of the finest fruits -- love, family, friendship -- it can offer. Marcus Aurelius has written that we are all creatures of a day. With Yalom as our guide, we will find the means to make our own day not only bearable, but also meaningful and joyful.

**Love's Executioner and Other Tales of Psychotherapy** Irvin D. Yalom, 2013 In [this book], psychotherapist Irvin Yalom gives accounts of his work with patients. Their case histories lay bare human anxieties - isolation, fear of death or freedom, a sense of the meaninglessness of life - that few of us escape completely, and show how we can all come to terms with such fears.--

**The Summer of Her Baldness** Catherine Lord, 2010-07-05 No eyebrows. No eyelashes. When it rains the water will run straight down into my eyes, Catherine Lord wrote before her hair fell out during chemotherapy. Propelled into an involuntary performance piece occasioned by the diagnosis of breast cancer, Lord adopted the online persona of Her Baldness—an irascible, witty, polemical presence who speaks candidly about shame and fear to her listserv audience. While Lord suffers from unwanted isolation and loss of control as her treatment progresses, Her Baldness talks back to the society that stigmatizes bald women, not to mention middle-aged lesbians with a life-threatening disease. In this irreverent and moving memoir, Lord draws on the e-mail correspondence of Her Baldness to offer an unconventional look at life with breast cancer and the societal space occupied by the seriously ill. She photographs herself and the rooms in which she negotiates her disease. She details the clash of personalities in support groups, her ambivalence about Western medicine, her struggles to

maintain her relationship with her partner, and her bemusement when she is mistaken for a sir. She uses these experiences—common to the one-in-eight women who will be diagnosed at some point with breast cancer—to illuminate larger issues of gender signifiers, sexuality, and the construction of community.

**The Gift of Therapy : Reflections on Being a Therapist** Irvin D. Yalom, 2002 The Gift Of Therapy is the culmination of master psychiatrist Dr Irvin Yalom's thirty-five years' work as a therapist, illustrating through real case studies how patients and therapists alike can get the most out of therapy. Presented as eighty-five 'tips' for 'beginner therapists', Yalom shares his own fresh approach and the insights he has gained while treating his patients.

*Leaving Home* David Celani, 2011 Relinquishing family attachments that failed to meet childhood needs is the most difficult task individuals can undertake as they grow into adulthood. Leaving Home not only emphasizes the life-saving benefits of separating from toxic parents but also offers a viable program for personal emancipation. David P. Celani centers his program on Object Relations Theory, a branch of psychoanalysis developed by Scottish analyst Ronald Fairbairn. The human personality, Fairbairn argued, is not the result of inherited (and thus immutable) instincts. Rather, the developing child builds internal relational templates rooted in conscious and unconscious memories he internalized in childhood, and these guide his future interactions with others. While an attachment to neglectful or even abusive parents is not uncommon, there is a way out. Eloquent, relatable, and filled with rich examples taken from more than two decades of clinical practice, Leaving Home outlines the practical steps necessary to become a healthy adult.

**Hour of the Heart** Irvin D. Yalom, Benjamin Yalom, 2024-12-10 A deeply moving and revealing chronicle of the challenges and breakthroughs that come from a wholly new practice of one-hour, one-time-only sessions, from one of the most prominent psychotherapists of our time Facing memory loss at age ninety-three as well as the fallout from a global pandemic that moved much of daily life online, legendary psychotherapist and bestselling author Irvin D. Yalom was forced to vastly reconsider the shape of his sessions with patients. Rather than throw in the towel in the face of change, Dr. Yalom considered head-on the limitations imposed by these new realities and revolutionized his practice. Turning his focus to what might be achieved in a one-hour, one-time-only meeting between patient and practitioner, Dr. Yalom employed an even more concerted use of his “here and now” approach. In Hour of the Heart, Yalom recounts some of these intense, life-changing sessions, exploring an array of human predicaments and his own late-career development as a therapist. In recounting these consultations, he shows how a therapist’s willingness to be open helps patients let down their own guards, leading to a deeper and more immediate connection—one necessary to achieving profound realizations in just sixty minutes. This vulnerability led Yalom to disclose details about his personal life that he might previously have kept hidden from patients, including his traumatic childhood in Washington, DC, the evolution of his thinking about philosophy and psychotherapy, and the recent death of his wife. Throughout, he pushes the boundaries of self-revelation as a therapeutic tool. Life is precious

and our time together short. Written in collaboration with his son, *Hour of the Heart* shows us how to relate to each other better in the moment, with more honesty and vulnerability. That hour of connection, occurring during a time of isolation and grief for so many, helped to sustain both patient and therapist, and enriched Yalom's vision of what psychotherapy can do.
