Women in Combat Rosemarie Skaine, 2011-01-19 This handbook provides a straightforward account of how women have served in combat roles and explains the ongoing controversy surrounding efforts to legalize combat assignments for female service members. Women have been excluded from combat roles for most of American history. During conflicts such as the American Civil War, a few women enlisted as men; in some cases, their identities as women were not discovered until after their deaths. Today, the nontraditional battlefields of Iraq and Afghanistan have no clearly defined front lines, and many female soldiers have found themselves face-to-face with the enemy. Yet despite the realities of modern warfare, the subject of women serving in combat roles remains highly controversial. *Women in Combat: A Reference Handbook* examines the historical background, current dilemmas, and global context of this contentious issue. The author explores both sides of the argument, presenting information from leading sources and gleaned from personal interviews. Statistical data, primary source documents, a directory of organizations, and print and electronic resources offer additional insight.

Security Sector Transformation in Africa Alan Bryden, 'Funmi Olonisakin, 2010 The need for security sector transformation (SST) is prominent in the work of scholars, policy makers and practitioners that focus on the security sector and its governance in Africa. At the heart of this approach is the requirement for comprehensive change in the orientation, values, principles and practices that shape the provision, management and oversight of security on the African continent. The evident obstacles to achieving such far-reaching goals mean that it is particularly important to identify the practical utility of the SST concept in supporting positive behaviour change within different African settings. It is also necessary to clarify the relationship between the concept of security sector transformation and the evolving security sector reform (SSR) discourse. This volume seeks to provide such additional clarity to SST and its relationship to SSR. It includes contributions from a range of acknowledged experts analysing dynamics of security sector transformation at the domestic level as well as 'beyond the state'. The resulting insights are intended to help elaborate an understanding of the challenges to and opportunities for the realisation of an operational security sector transformation agenda in Africa.

China's Relations with Africa Joshua Eisenman, David H. Shinn, 2023-08-01 Since Xi Jinping's accession to power in 2012, nearly every aspect of China's relations with Africa has grown dramatically. Beijing has increased the share of resources it devotes to African countries, expanding military cooperation, technological investment, and educational and

cultural programs as well as extending its political influence. This book examines the full scope of contemporary political and security relations between China and Africa. David H. Shinn and Joshua Eisenman not only explain the specific tactics and methods that Beijing uses to build its strategic relations with African political and military elites but also contextualize and interpret them within China's larger geostrategy. They argue that the priorities of Chinese leaders—including the conflation of threats to the Communist Party with threats to the country, a growing emphasis on relations in the Global South, and a focus on countering U.S. hegemony—have combined to elevate Africa's importance among policy makers in Beijing. Ranging from diplomacy and propaganda to arms sales and space cooperation, from increasingly frequent People's Liberation Army Navy port calls in Africa to the rising number of African students studying in China, this book marshals extensive and compelling qualitative and quantitative evidence of the deepening ties between China and Africa. Drawing on two decades of systematic data and hundreds of surveys and in-person interviews, Shinn and Eisenman shed new light on the state of China-Africa relations today and consider what the future may hold.

Security in an Interconnected World Ernst Hirsch Ballin, Huub Dijkstra, Peter de Goede, 2020-10-09 This open access book follows the idea that security policy must be based on strategic analysis. Defence policy and the role of the armed forces can subsequently be determined on the grounds of said analysis. More than ever, internal and external security, and developments both in the Netherlands and abroad are interconnected. The world order is shifting, the cooperation within NATO and the EU is under pressure and the Dutch armed forces are gasping for breath. What is the task of Dutch security and the defence policy? There have been growing calls in the last few years to end the devastating cuts in the defence budget and to invest more in security. The acute threats and conflicts in which the Netherlands are involved have served as a wake-up call. The shooting down of Flight MH17 over Ukraine, the streams of refugees from Syria and other countries, the conflict with Da'esh in Syria and Iraq, and terrorist threats reveal how events in many of the world's flash-points have a direct or indirect impact on the Netherlands. Conflicts in other countries have a spill-over effect in The Netherlands. This is illustrated by tensions between population groups and the clashes over the Gülen schools after the failed putsch in Turkey on 15 July 2016 and over the constitutional referendum in that country. How do we ensure that any additional funds are not divided amongst the branches of the armed forces without any sense of strategic direction? What should a future-proof security policy that plots the course of defence policy entail? What strategic analyses should lie behind the political choices that are made? This book answers these questions and offers a comprehensive framework addressing among other things human security, national security and flow security. Apartheid Edgar H. Brookes, 2022-10-05 Originally published in 1968, this volume traces the history and growth of Apartheid in South Africa. The acts which enforced Apartheid – the Group Areas Act, Population and Registration Act are given in full. The book also includes documents which reflected reaction to these measures: Parliamentary debates, newspaper reports and policy statements by the leading political parties and religious denominations. The documents are headed by a full historical and analytical introduction.

Internationalizing and Privatizing War and Peace H. Wulf, 2005-08-05 In this timely work, the author analyzes the use of private military firms and international interventions of the military. Outsourcing to the private sector takes missions away from the military, but the shift towards international intervention adds new, wider functions to the traditional role of defence. If these two trends continue at the present pace, important security functions will be out of control of parliaments, national governments and international authorities. The state monopoly of violence – an achievement of civilization – is at stake.

Defence Technology Made Easy Minah Sindane-Bloem,

HIV/AIDS and the Security Sector in Africa Obijiofor Aginam, Martin Revai Rupiya, 2012 Throughout history, communicable diseases have devastated armies and weakened the capacity of state institutions to perform core security functions. Today, the HIV/AIDS epidemic in Africa has prompted many of the affected countries to initiate policies aimed at addressing its impact on their armed forces, police, and prisons. This volume explores the dynamics of how the security sectors of selected African states have responded to the complex and multifaceted challenges of HIV/AIDS. Current and impending African HIV/AIDS policies address a range of security-related issues: * The role of peacekeepers in the spread or control of HIV * The dilemma of public health (the need to control HIV) versus human rights (protection against mandatory

medical testing) needs * The gender dimensions of HIV in the armed forces * The impact of HIV on the police and prisons The chapters in HIV/AIDS and the Security Sector in Africa are written by African practitioners, including commissioned officers who are currently serving in the armed forces, medical officers and nurses working in the military, and African policy and academic experts. While the book does not comprehensively address all aspects of the impact of HIV/AIDS on the security sector, the contributors nonetheless highlight the potentials and limits of existing policies.

Military Doctrine Bert Chapman, 2009-09-03 This comprehensive volume provides a thorough overview of 20th- and 21st-century military doctrines worldwide. *Military Doctrine: A Reference Handbook* takes a thorough look at 20th- and 21st-century military doctrines around the world. It excerpts relevant English-language scholarly and governmental literature to paint a picture of how military doctrine has developed in recent history, what military doctrines are currently operating on the world stage, and where military doctrine is heading in the near future. The book casts a wide net, scanning the relevant government documents, international agreements, monographs, journals, conference papers, and Internet resources to present a thorough overview of the importance of military doctrine in today's highly unstable world. Because military institutions are important formulators of national military doctrine and not merely implementers, this book examines the roles played by military organizations around the world. With the proliferation of independent military scholars and the widespread influence of their work in the Internet age, the book also scans the gray literature and describes its effects on military doctrine.

Proud of Me Charlene Smith, 2001 On 1 April 1999 multi-award winning journalist Charlene Smith was raped at knifepoint in her Johannesburg home. Severely traumatised, she was none the less determined to speak out, and her first moving article about her rape and possible HIV infection was published just a week after the ordeal. So began an unrelenting campaign giving her a platform from which she has challenged traditional thinking on sexual violence, women's liberation, trauma management and HIV/AIDS. Her crusade has seen her endure stalkers, death threats and political persecution and has been covered by the world's media, from *Time* magazine, CBS's 60 Minutes and the BBC to the media in Uganda, Kenya and Brazil, amongst others. Drawing on the support of those around her, *Proud of Me* is her account of how rape and fear of HIV infection impacted on her own life, the lives of her children and those close to her.

Towards Good Order at Sea Thomas Mandrup, Francois Vre~, 2015-03-01 The problems originating from the resultant ?bad order at sea? can be directly felt on land, when smuggling, terrorism and related criminal activities operate more or less unhindered. The book provides an important mapping of the challenges preventing good order at sea off the African coast and East Africa in particular. ÿ- Rear Admiral N. A Sailor's Story Nilkanta Krishnan, Arjun Krishnan, 2011 Autobiography of a former vice admiral of Indian Navy.

'Mad Mike' Hoare Chris Hoare (Journalist), 2018 Colonel Mike Hoare led 300 'Wild Geese' across the Congo to crush a communist rebellion, rescue 2000 nuns and priests from barbarity, beat Che Guevara ... and become a legend. Of Irish blood, Mike was schooled in England and, during World War 2, was the 'best bloody soldier in the British Army'. He demobbed as major, qualified in London as a chartered accountant and emigrated to South Africa. Going rogue, he started living dangerously to get more out of life, including trans-Africa motorbike trips, bluewater sailing, exploring remote areas, and leading safaris in the Kalahari Desert. Here Mike got to know the CIA agent who was to change his life ... and who was to stop Nelson Mandela's. Later Mike was technical advisor to the film *The Wild Geese*, which starred Richard Burton playing the Mike Hoare character. In 1981 Mike led 50 'Frothblowers' in a bid to depose the socialist government of the Seychelles. Things went wrong and soon Mike was to spend three years in jail for hijacking a Boeing 707. In this, the story behind the story - rich in new material - Mike's son Chris separates the man from the myth in a way only a son can, and concludes his 'mad dad' was an officer and a gentleman with a bit of pirate thrown in.
