**Women in Combat** Rosemarie Skaine,2011-01-19 This handbook provides a straightforward account of how women have served in combat roles and explains the ongoing controversy surrounding efforts to legalize combat assignments for female service members. Women have been excluded from combat roles for most of American history. During conflicts such as the American Civil War, a few women enlisted as men; in some cases, their identities as women were not discovered until after their deaths. Today, the nontraditional battlefields of Iraq and Afghanistan have no clearly defined front lines, and many female soldiers have found themselves face-to-face with the enemy. Yet despite the realities of modern warfare, the subject of women serving in combat roles remains highly controversial. *Women in Combat: A Reference Handbook* examines the historical background, current dilemmas, and global context of this contentious issue. The author explores both sides of the argument, presenting information from leading sources and gleaned from personal interviews. Statistical data, primary source documents, a directory of organizations, and print and electronic resources offer additional insight.

**Proud of Me** Charlene Smith,2001 On 1 April 1999 multi-award winning journalist Charlene Smith was raped at knifepoint in her Johannesburg home. Severely traumatised, she was none the less determined to speak out, and her first moving article about her rape and possible HIV infection was published just a week after the ordeal. So began an unrelenting campaign giving her a platform from which she has challenged traditional thinking on sexual violence, women's liberation, trauma management and HIV/AIDS. Her crusade has seen her endure stalkers, death threats and political persecution and has been covered by the world's media, from Timemagazine, CBS's 60 Minutes and the BBC to the media in Uganda, Kenya and Brazil, amongst others. Drawing on the support of those around her, Proud of Me is her account of how rape and fear of HIV infection impacted on her own life, the lives of her children and those close to her.

**Internationalizing and Privatizing War and Peace** H. Wulf,2005-08-05 In this timely work, the author analyzes the use of private military firms and international interventions of the military. Outsourcing to the private sector takes missions away from the military, but the shift towards international intervention adds new, wider functions to the traditional role of defence. If these two trends continue at the present pace, important security functions will be out of control of parliaments, national governments and international authorities. The state monopoly of violence - an achievement of civilization - is at stake.

Defence Technology Made Easy Minah Sindane-Bloem,

HIV/AIDS and the Security Sector in Africa Obijiofor Aginam,Martin Revai Rupiya,2012 Throughout history,

communicable diseases have devastated armies and weakened the capacity of state institutions to perform core security functions. Today, the HIV/AIDS epidemic in Africa has prompted many of the affected countries to initiate policies aimed at addressing its impact on their armed forces, police, and prisons. This volume explores the dynamics of how the security sectors of selected African states have responded to the complex and multifaceted challenges of HIV/AIDS. Current and impending African HIV/AIDS policies address a range of security-related issues: \* The role of peacekeepers in the spread or control of HIV \* The dilemma of public health (the need to control HIV) versus human rights (protection against mandatory medical testing) needs \* The gender dimensions of HIV in the armed forces \* The impact of HIV on the police and prisons The chapters in HIV/AIDS and the Security Sector in Africa are written by African practitioners, including commissioned officers who are currently serving in the armed forces, medical officers and nurses working in the military, and African policy and academic experts. While the book does not comprehensively address all aspects of the impact of HIV/AIDS on the security sector, the contributors nonetheless highlight the potentials and limits of existing policies.

This is leading to a fundamental reshaping of the relationship between citizen and state. In *The Rise of Digital Repression*, Steven Feldstein presents new field research from Thailand, the Philippines, and Ethiopia to highlight how governments pursue digital strategies of repression based on a range of factors: ongoing levels of repression, leadership, state capacity, and technological development.
