Inventive Systems and Control V. Suma,Zubair Baig,Selvanayaki Kolandapalayam Shanmugam,Pascal Lorenz,2022-08-01

This book presents selected papers from the 6th International Conference on Inventive Systems and Control (ICISC 2022), held on 6–7 January 2022 at JCT College of Engineering and Technology, Coimbatore, India. The conference proceedings of ICISC 2022 includes an analysis of the class of intelligent systems and control techniques that utilizes various artificial intelligence technologies, where there is no mathematical models and system available to make them remain controlled. Inspired by various existing intelligent techniques, the primary goal of ICISC 2022 proceedings is to present the emerging innovative models to tackle the challenges faced by the existing computing and communication technologies.

Computing and Machine Learning Jagdish Chand Bansal,Samarjeet Borah,Shahid Hussain,Said Salhi,2024-10-22 This book features high-quality research papers presented at the International Conference on Computing and Machine Learning (CML 2024), organized by the Department of Computer Applications, Sikkim Manipal Institute of Technology, Sikkim Manipal University, Sikkim, India during April 29–30, 2024. The book presents diverse range of topics, including machine learning algorithms and models, deep learning and neural networks, computer vision and image processing, natural language processing, robotics and automation, reinforcement learning, big data analytics, cloud computing, Internet of things, human-robot interaction, ethical and social implications of AI, applications in healthcare, finance, and industry, computer modeling, quantum computing, high-performance computing, cognitive and parallel computing, cloud computing, distributed computing, embedded computing, human-centered computing, and mobile computing.

Proceedings of Second International Conference on Sustainable Expert Systems Subarna Shakya,Ke-Lin Du,Wang Haoxiang,2022-02-26 This book features high-quality research papers presented at the 2nd International Conference on Sustainable Expert Systems (ICSES 2021), held in Nepal during September 17–18, 2021. The book focusses on the research information related to artificial intelligence, sustainability, and expert systems applied in almost all the areas of industries, government sectors, and educational institutions worldwide. The main thrust of the book is to publish the conference papers that deal with the design, implementation, development, testing, and management of intelligent and sustainable expert

systems and also to provide both theoretical and practical guidelines for the deployment of these systems.

Computer Networks and Inventive Communication Technologies S. Smys,Pavel Lafata,Ram Palanisamy,Khaled A. Kamel,2022-10-13 This book is a collection of peer-reviewed best selected research papers presented at 5th International Conference on Computer Networks and Inventive Communication Technologies (ICCNCT 2022). The book covers new results in theory, methodology, and applications of computer networks and data communications. It includes original papers on computer networks, network protocols and wireless networks, data communication technologies, and network security. The proceedings of this conference is a valuable resource, dealing with both the important core and the specialized issues in the areas of next generation wireless network design, control, and management, as well as in the areas of protection, assurance, and trust in information security practice. It is a reference for researchers, instructors, students, scientists, engineers, managers, and industry practitioners for advance work in the area.

IoT Based Control Networks and Intelligent Systems P. P. Joby,Marcelo S. Alencar,Przemyslaw Falkowski-Gilski,2023-11-27 This book gathers selected papers presented at International Conference on IoT Based Control Networks and Intelligent Systems (ICICNIS 2023), organized by School of Computer Science and Engineering, REVA University, Bengaluru, India, during June 21-22, 2023. The book covers state-of-the-art research insights on Internet of things (IoT) paradigm to access, manage, and control the objects/things/people working under various information systems and deployed under wide range of applications like smart cities, healthcare, industries, and smart homes.

Computational Intelligence Applied to Decision-Making in Uncertain Environments Pedro Yobanis Piñero Pérez,Iliana Pérez Pupo,Janusz Kacprzyk,Rafael Esteban Bello Pérez,2025-03-24 This book is dedicated to all those interested in the application of computational intelligence techniques for decision-making in uncertain environments. The book is organized into four parts. The first part groups together four works related to conversational systems and decision-making using generative artificial intelligence. The second part includes four articles associated with decision-making in project-oriented environments. The third part includes three works related to decision-making in human health environments and decision-making in sports training. The fourth part of the book contains three articles associated with business decision-making. This book combines different artificial intelligence techniques for solving decision-making problems, among which the following stand out: generative artificial intelligence, linguistic data summarization techniques, neutrosophic theory, computing with words, among other techniques. The techniques proposed in the book aim to simulate human tolerance in

decision-making processes in environments with uncertainty and imprecision. The authors of the book stand out for their extensive experience in the development of basic and applied applications of computational intelligence. The authors Pedro Y. Piñero Pérez, Iliana Pérez Pupo, Janusz Kacprzyk, and Rafael E. Bello Pérez have published several books associated with artificial intelligence and applied computational intelligence. They continue to work on fundamental and applied research on different artificial intelligence techniques to assist decision-making in different areas of knowledge. The authors thank all the engineers, professors, and researchers without whose efforts this book could not have been written.

Handbook of Universities ,2006 The Most Authentic Source Of Information On Higher Education In India The Handbook Of Universities, Deemed Universities, Colleges, Private Universities And Prominent Educational & Research Institutions Provides Much Needed Information On Degree And Diploma Awarding Universities And Institutions Of National Importance That Impart General, Technical And Professional Education In India. Although Another Directory Of Similar Nature Is Available In The Market, The Distinct Feature Of The Present Handbook, That Makes It One Of Its Kind, Is That It Also Includes Entries And Details Of The Private Universities Functioning Across The Country. In This Handbook, The Universities Have Been Listed In An Alphabetical Order. This Facilitates Easy Location Of Their Names. In Addition To The Brief History Of These Universities, The Present Handbook Provides The Names Of Their Vice-Chancellor, Professors And Readers As Well As Their Faculties And Departments. It Also Acquaints The Readers With The Various Courses Of Studies Offered By Each University. It Is Hoped That The Handbook In Its Present Form, Will Prove Immensely Helpful To The Aspiring Students In Choosing The Best Educational Institution For Their Career Enhancement. In Addition, It Will Also Prove Very Useful For The Publishers In Mailing Their Publicity Materials. Even The Suppliers Of Equipment And Services Required By These Educational Institutions Will Find It Highly Valuable.

TEXTBOOK OF MEDICINAL CHEMISTRY II (BP501T) (Theory) Dr. Gurinderdeep Singh, Mr. S. G. Raman , Professor Srinivasa Rao Atla , Dr. Ashish Ashok Gawai , Dr. K. Vijay Kishore, 2024-07-11 Introducing the book Medicinal Chemistry - II is something that fills me with an incredible amount of joy. The content of this book has been meticulously crafted to adhere to the curriculum for Bachelor of Pharmacy students that has been outlined by the Pharmacy Council of India. An effort has been made to investigate the topic using terminology that is as straightforward as possible in order to make it more simply digestible for pupils. The book has a number of illustrations, such as flowcharts and diagrams that make it simple for students to comprehend complex ideas. It is the author's honest desire that both students and academicians would take something helpful away from reading this book.

A TEXTBOOK OF PATHOPHYSIOLOGY Mr. P.S. Minhas , Dr. V. Jaya Sankar Reddy , Mrs. V. Jenila Jose Jancy , Dr. Basavaraj Hulkoti , Dr. Gaurav Tiwari, 2024-07-05 This book is intended to communicate information on novel drug delivery techniques, to direct tutors and learners regarding fundamental concepts in pathophysiology. The major aim to write this

textbook is to provide information in articulate summarized manner to accomplish necessities of undergraduates as per PCI regulation. This volume is designed not only according to curriculum of undergraduate courses in pharmacy by PCI but also to communicate knowledge on pathophysiology.

Using Real-Time Data and AI for Thrust Manufacturing Satishkumar, D.,Sivaraja, M.,2024-03-28 In the dynamic world of manufacturing, the industry has grappled with ongoing issues such as expensive machine maintenance, operational inefficiencies, and the production of defective products. The need for informed decision-making to maintain quality, meet deadlines, and prevent disruptions is more crucial than ever. Enter *Using Real-Time Data and AI for Thrust Manufacturing*, a groundbreaking book that addresses these challenges head-on. As Industry 4.0 transforms the manufacturing sector through the integration of the Internet of Things (IoT) and artificial intelligence (AI), this book serves as a beacon for academic scholars and industry professionals alike, offering profound insights into the world of AI-driven industry solutions. The objective of this book is clear—to revolutionize the manufacturing sector by leveraging human expertise and AI-driven data technologies. By delving into the realms of Industry 4.0, IoT, and AI, the book systematically tackles issues such as costly downtime, inefficient processes, and the production of substandard products. With a focus on turning raw data into meaningful insights, the book explores AI applications like machine learning and deep learning, natural language processing, and machine vision. From predictive maintenance to improved demand forecasting, quality assurance, inspection, and warehouse automation, the book positions AI as the linchpin of Industry 4.0, ensuring not only cost savings but also safety improvements and supply-chain efficiencies.

Protein Interactions as Targets in Drug Discovery Rossen Donev,2020-04-17 *Protein Interactions as Targets in Drug Discovery*, Volume 121, is dedicated to the design of therapeutics, both experimental and computational, that target protein interactions. Chapters in this new release include Trends in structure based drug design with protein targets, From fragment- to peptide-protein interaction: addressing the structural basis of binding using Supervised Molecular Dynamics (SuMD), Protein-protein and protein-ligand interactions: identification of potential inhibitors through computational analysis, Aromatic-aromatic interactions in protein-drug and protein-protein interactions, Role of protein-protein interaction in allosteric drug design within the human methyltransferome, and much more.

Whole-Cell Biocatalysis Sudheer D. V. N. Pamidimarri,Sushma Chauhan,Balasubramanian Velramar,2024-06-28 Whole-cell biocatalysis is a promising and emerging field of biological science that is mostly based on advancements in biosystems engineering for the production of useful products such as chemicals, fuels, and pharmaceuticals. It is a unique platform that provides an efficient catalytic system at affordable cost and with low maintenance. Recent studies have proven that whole-cell catalysis is very useful in conducting many complex and complicated chemical reactions that could be executed with greater ease and in an eco-friendly manner in ambient conditions with zero/minimal ecological effect. This has made whole-

cell biocatalysis very popular and a center of significance in the field of modern biological catalysis. This new volume offers a comprehensive understanding of whole-cell biocatalysis, beginning with an introduction and an overview of relevant tools and techniques. It presents the basic as well as the advanced concepts of whole-cell biocatalysis, thus acting as a complete guide for the reader. It looks at the promising developments that have taken place in the past decade and discusses the application of computational tools, the use of metabolic flux systems, and the role of metabolic networks for the cell system development for whole-cell catalysis. The chapters explore whole-cell biocatalysis for the production of chemicals, of fuels, and for environmental restoration, with case studies and success stories that showcase new developments in the technology. This volume provides a valuable presentation of whole-cell biocatalysis for graduate students, faculty, industry professionals, and others working in biochemistry and bio-systems engineering.

Circular Bioeconomy Perspectives in Sustainable Bioenergy Production Gurunathan Baskar,Veeramuthu Ashokkumar,Samuel Lalthazuala Rokhum,Vijayanand Suryakant Moholkar,2024-08-02 This book covers the various technological developments and challenges in converting biomass residues into different forms of bioenergy. The continuous increase in the world population increased the demand for food products. The incorporation of modern technologies in agriculture increased the production of various food products, ending with excess generation of agricultural biomass residues from primary and secondary agriculture industries. Since, these biomass residues are a rich source of valuable bioproducts, they can be converted into various forms of bioenergy, such as biogas, biochar, biooil, biodiesel, and bioethanol. Besides, this approach is expected to address the gaps in biomass residue management and transformation to valuable bioproducts, and it also enhances the circular economy perspective. The book can be a valuable reference for beginners, researchers, and professionals interested in sustainable construction and allied fields.

AI for Large Scale Communication Networks Kanthavel, R.,Dhaya, R.,2024-10-25 Artificial Intelligence (AI) is rapidly becoming essential to large-scale communication networks. Driven by the need for greater efficiency, security, and optimization, AI has evolved into a powerful tool that processes vast data and delivers insights through real-time processing, predictive analysis, and adaptive learning. Because these advancements transform how we interact with data and services, applying AI to complex networks has never been more essential. AI for Large Scale Communication Networks explores how AI can enhance network performance, scalability, and security. With contributions from experts, this book covers topics such as algorithm optimization, machine learning improvements, and neural network applications. It also addresses critical challenges like fault tolerance and distributed computing, emphasizing the need for interdisciplinary collaboration. Designed for academics, practitioners, and students, this resource provides actionable insights and strategies to optimize communication networks using AI.

I3CAC 2021 Mahalingam Sundhararajan ,Balaguru Karthik,2021-06-04 I3CAC provides a premier interdisciplinary

platform for researchers, practitioners and educators to present and discuss not only the most recent innovations, trends, and concerns but also practical challenges encountered and solutions adopted in the fields of computing, communication and control systems. Participation of three renowned speakers and oral presentations of the 128 authors were presented in our conference. We strongly believe that the I3CAC 2021 conference provides a good forum for all researchers, developers and practitioners to discuss.

Nanotechnology in Food Packaging Awanish Kumar,2025-03-14 For researchers and food industry professionals seeking a comprehensive, fully up to date single source on nanotechnology in food packaging, this text provides all the needed information. The book begins with a chapter on the current state of nanotechnology and its use in food packaging and the industry as a whole, including current advances in methods and technology. Further chapters address organic nano packaging for shelf life and quality retention, the use of inorganic nanomaterials, biopolymeric nano packaging and composite nano packaging materials. Nanotechnology in Food Packaging focuses on the methods of synthesis for nano-based food packaging materials and the fabrication of improved, active and smart packaging materials. Ethical issues and safety features of nanomaterials are addressed, plus the main challenges and regulatory aspects of nanomaterials in food products. An important chapter looks to the future of nanotechnology in the food packaging industry. Toxicological aspects, detection methods and analysis of nanomaterials are also covered in full. With its wide scope and up to date information on technological advancements, this is the perfect source for those seeking knowledge on the use of nanotechnology in the food industry.

Quality Assurance Dr. R. Sundhararajan,Dr. M.V. Kumudhavalli,Dr. Minal T,2022-03-03 Explore the budget-friendly e-Book version of 'Quality Assurance' for B.Pharm 6th Semester, following the PCI Syllabus. Published by Thakur Publication, this digital edition delivers the same comprehensive content at just a fraction of the cost of the paperback. Don't miss out on this opportunity to save 60% compared to the physical edition. Grab your copy today and elevate your learning experience!

Integrated Evaluation of Disability Ramar Sabapathi Vinayagam,2019-01-15 There are overwhelming demands for health and rehabilitation services due to rise in the number of disabled people. The existing literature on disability evaluation has only focused on impairment or functional limitation or earning capacity. They have not considered the skills fundamental to live, learn and work successfully in the community. This book addresses integrated evaluation of disability using 'Clinical Tools', 'Activity Participation Skills Assessment Scale', 'Personal Factors Measurement Scale', and 'Environmental Factors Measurement Scale'. Physicians from all disciplines can use this method to evaluate disability pertaining to their respective fields. Key Features Applies the principles of 'World Health Organization's International Classification of Functioning, Disability and Health - ICF' Includes case studies in the hypothetical model in this book Includes a Ready Reckoner Impairment Table provides impairment score for 120 common clinical conditions Consists of an integrated software which

computes percentage of disability for clinical conditions

Vinayaka Missions University Salem Chennai Department Of Introduction

In the digital age, access to information has become easier than ever before. The ability to download Vinayaka Missions University Salem Chennai Department Of has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader

searching for your next favorite book, or a professional seeking research papers, the option to download Vinayaka Missions University Salem Chennai Department Of has opened up a world of possibilities. Downloading Vinayaka Missions University Salem Chennai Department Of provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Vinayaka Missions University Salem Chennai Department Of has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity

promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Vinayaka Missions University Salem Chennai Department Of. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Vinayaka Missions University Salem Chennai Department Of.
