Quilt tops come together quickly with large-scale cuts of fabric and as little piecing as possible, making these projects perfect for beginners. Advanced quilters can delve into modern techniques such as creating curved lines and working with negative space rather than intricate quilting blocks. From chic wall hangings to cozy crib-size and queen-size quilts, every project doubles as a work of art. Fueled by her minimalist lifestyle traveling the United States in her Airstream trailer, Laura's designs reflect the striking landscapes of the American West. The Arches Queen Quilt showcases the dramatic curves found in Arches National Park in Utah. The Lone Pine Pillow, with its range of triangles, was inspired by the Sierra Nevada mountains, and the Sand Dollar Table Runner was sparked by a beach in Big Sur, California. Follow Laura's insightful design tips, and soon you'll start to see inspiration everywhere. With illustrated step-by-step instructions and in-depth tutorials, this book is an essential resource for the modern quilter.

Developing Language Concepts Bridget Burrows, 2017-07-05 This book is a valuable resource for all speech language therapists, teachers and support assistants working with children in schools and community clinics. It provides practical, step-by-step photocopiable programmes to help with specific language concepts, such as amount, colour, size, time and shape. The programmes are intended for speech language therapists to copy and send to the school where staff can deliver the programmes, although they can be used by the therapist themselves. Clearly set out, the exercises can be personalised for each child and are graded so that the therapist can select and copy the sheets relevant to the child's needs. Each programme introduces the concept, teaches it and then checks to see if the child understands it. There is also practical

advice on setting up therapy programmes in schools, such as setting up appointments, working in the school with children, staff and parents, covering letters to send with the programme, how to write programmes and many other useful tips.
