*Property Fire Protection* Michael W. Janko,1992 All aspects of protecting property from fire damage in professional and industrial settings are encompassed in this manual. The author's unique approach to protection relies on three criteria: emergency response, inspection and maintenance. It demonstrates how to customize fire protection guidelines to fit any particular type of business, and provides more than 100 fire safety checklists that expedite implementation of safety measures. Safety professionals will minimize the effects of fire emergencies by learning how to consolidate resources for emergency response, maintain fire protection systems, and ensure proper fire protection inspections. They will also gain insights into how to work with various public authorities, property insurance engineers, and fire protection contractors. All techniques discussed are based on observations of actual field conditions in manufacturing plants, warehouses, hotels, restaurants, commercial buildings, and hospitals.

**New Solutions for House Museums** Donna Ann Harris,2020-11-17 This substantially enlarged and expanded second edition of *New Solutions for House Museums: Ensuring the Long-Term Preservation of America's Historic Houses* provides advice for historic site stewards that have concerns about the financial sustainability of their historic house museum and its relevance to its local audience. Seven new case studies have been added for the second edition. The new case studies reinforce the book's central argument that not every historic house museum, whether founded 100 years ago or last month, can be sustained long-term. Three of the new case studies are from diverse historic sites, showcasing how African American, women, and other minority-focused historic sites are pioneering new ways to commemorate their histories and interpret fascinating stories to visitors, with the end goal of creating financially sustainable historic sites that are relevant to their audience. New interviews have been conducted with the ten existing case studies from the first edition to bring them up to date. The new edition adds two new reuse options to the eight introduced in the first edition. This chapter describes how to identify and implement a reuse decision, costs and advisors needed, and tips on decision making. There is a new chapter-long interview with Tom Mayes, Chief Legal Officer and General Counsel for the National Trust for Historic Preservation, on recent legal and ethical issues facing historic sites. Another new chapter provides advice on the essential role of the historic site's Board of Directors as the decision maker for any reuse exploration. The second edition of *New Solutions for House*

Museums contains a new introduction to the second edition, an updated conclusion, bibliography, and index.

*The Holmes Inspection* Mike Holmes,2013-08-27 The Holmes Inspection will be the definitive guide to smart home-buying and home-selling for Canadians. It's often said that a home is the biggest investment most people will ever make, yet many buyers, when considering a house, spend less time on examining its pros and cons than they might on a head of lettuce at the supermarket. Why? A big part of the problem is knowledge: without an understanding of house construction, materials and finishing, many people are overwhelmed and decide to forego the inspection process altogether, or leave it entirely in the hands of a home inspector—who might not be much of an expert either. The Holmes Inspection gives readers the tools they need to buy smart and sell smart. Beginning with the most basic rationale for inspecting prior to buying, the book shows readers what to expect from the houses they'll see, what qualities to look for, and the red flags to watch out for. As well, they'll learn what a home inspector can and can't do, get advice on how to find a good home inspector, and find out about options to the "professional" home inspection route. Using sidebars, checklists—and the savvy, no-nonsense style that Mike Holmes fans know and love—The Holmes Inspection is like having Mike himself along for the ride of making that biggest of investments: your own home.
