**Being Fair, Faring Better** Roberta Gatti,Sandor Karacsony,Kosuke Anan,Celine Ferré,Carmen de Paz Nieves,Valerie Morrica,Carmen de Paz,Abla Safir,2016-02-05 In Central and Eastern European countries, inequalities for Roma families living in marginalized communities start early and are striking. Some of these inequalities reflect hard-wired family circumstances such as being born in poverty. Others reflect lack of opportunities such as limited access to those basic goods and services that are necessary not only for realizing one's potential in life, but also for living with dignity. Gaps between Roma and non-Roma widen over the lifecycle in a way that reinforces and perpetuates disadvantage and translates into significantly unequal outcomes, despite the fact that Roma report having similar aspirations to those of their non-Roma neighbors. Promoting equal opportunities for disadvantaged Roma is not only an imperative for societies that want to call themselves fair, but it is also a smart economic choice, especially in those countries where populations are aging rapidly. Investing early, with a particular emphasis on supporting healthy and cognitive development for disadvantaged Roma children, is likely to go a long way in promoting fair chances. However, leveling the playing field in childhood is likely not enough: disadvantaged Roma continue being exposed to unequal opportunities at key nodes in their lives, such as when pursuing education or when looking for a job. Therefore, it is as important that a broader set of policies address some of the circumstances in which a large share of Roma children grow up, including access to employment and decent living conditions for their families. Implementing interventions that help overcome these interrelated barriers will require strong ownership at the national level, coordinated policies across different ministries and government levels, and an integrated delivery system that is grounded in approaches that are customized to local conditions and implemented in a participatory manner. Good practices in Europe and elsewhere show that inclusion of the most disadvantaged - including many Roma - is possible and the current programming cycle for European Funds represents a unique opportunity to fund such interventions.

**Law and Administration** Carol Harlow,Richard Rawlings,2009-08-20 This definitive textbook explores the field of law which allows government and its agencies to practically apply its laws. The subject, affected by policy and political factors, can challenge even the more advanced student. In response, this title looks at both the law and the factors informing it, laying down the foundations of the subject. This contextualised approach also allows the student to develop the broadest

possible perspective. Case law and legislation are set out and discussed, and the authors have built in a range of case studies to give a practical emphasis to the study. It is, however, the distinctive theoretical framework for administrative law that the authors develop that distinguishes this title from others and allows for real understanding of the subject. This updated edition will cement the title's seminal status.

**Teaching and the Case Method** Louis B. Barnes, Carl Roland Christensen, Abby J. Hansen, 1994 This third edition of *Teaching and the Case Method* is a further response to increased national and international interest in teaching, teachers, and learning, as well as the pressing need to enhance instructional effectiveness in the widest possible variety of settings. Like its predecessors, this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience. It is based on the belief that teaching is not purely a matter of inborn talent. On the contrary, the knowledge, skills, and attitudes that make for excellence in teaching can be analyzed, abstracted, and learned. One key premise of *Teaching and the Case Method* is that all teaching and learning involve a core of universally applicable principles that can be discerned and absorbed through the study and discussion of cases.

**The Enforcement of Intellectual Property Rights: A Case Book** L.T.C. Harms, World Intellectual Property Organization, 2012 With this publication, WIPO and the author aim at making available for judges, lawyers and law enforcement officials a valuable tool for the handling of intellectual property cases. To that effect, the case book uses carefully selected court decisions drawn from various countries with either civil or common law traditions. The extracts from the decisions and accompanying comments illustrate the different areas of intellectual property law, with an emphasis on matters that typically arise in connection with the enforcement of intellectual property rights in civil as well as criminal proceedings.

**International Police Cooperation** Daniel J. Koenig, Dilip K. Das, 2001 This volume combines the efforts of leading practitioners and academics in criminology to address the challenges of such persistent international problems as organized crime and illegal immigration. This book offers the most current and detailed account of new international cooperative initiatives.

**The Global Economic Crisis** Michel Chossudovsky, Andrew Gavin Marshall, 2010 In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a war without borders led by the U.S. and its NATO allies. This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken. Each of the authors

in this timely collection digs beneath the gilded surface to reveal a complex web of deceit and media distortion which serves to conceal the workings of the global economic system and its devastating impacts on people's lives.

**The Communicative Ethics Controversy** Seyla Benhabib, Fred Reinhard Dallmayr, 1990 This timely reader in moral philosophy addresses a controversy that strongly affected recent European reflections on the relevance of ethics for theories of democratic institutions and democratic legitimacy. The debate centers around the idea of a communicative ethics as articulated by Jürgen Habermas and Karl-Otto Apel, and it is representative both of recent attempts to bridge the gap between Continental and Anglo-American philosophy and of the turn to language that has characterized much of recent philosophy. The Communicative Ethics Controversy illustrates philosophical dialogue in action, moving from theses to counterarguments to rejoinders. Theoretical statements by Habermas, Apel, and two of their leading students, Dietrich Bohler and Robert Alexy, are followed by a series of five arguments by their leading critics, who represent viewpoints ranging from Kantian idealism to Wittgensteinian ordinary-language theory. Fred Dallmayr's introduction and Seyla Benhabib's incisive conclusion place the debate in perspective, bringing it up to date and relating it to the Anglo-American context. Seyla Benhabib is Associate Professor of Philosophy and Women's Studies at the State University of New York, Stony Brook. Fred Dallmayr is Packey Dee Professor of Government at the University of Notre Dame. Contributors: Robert Alexy. Karl-Otto Apel. Seyla Benhabib. Dietrich Bohler. Jürgen Habermas. Otfried Hoffe. Karl Heinz Ilting. Hermann Lubbe. Herbert Schnadelbach. Albrecht Wellmer.

Constitution of the Republic of Kosovo Constitutional Commission of the Republic of Kosovo, 2021-04-11 The Constitution of the Republic of Kosovo serves as a crucial legal framework embodying the democratic principles and aspirations of the newly independent state. Drawing upon principles from various constitutional traditions, this document encompasses a balance of governance, the rule of law, fundamental rights, and the promotion of human dignity. The text is crafted with precision, ensuring clarity and comprehensiveness, reflecting the influences of both European legal standards and the unique socio-political context of Kosovo's post-conflict landscape. The Constitutional Commission of the Republic of Kosovo, composed of legal experts and representatives from diverse political backgrounds, undertook the monumental task of drafting this constitution in the wake of Kosovo's declaration of independence in 2008. Their collaborative effort highlights

a commitment to inclusivity and reconciliation among Kosovo's diverse ethnic groups, demonstrating an awareness of the historical challenges the nation faces. The commission's work was motivated by a desire to establish a strong foundation for democratic governance and social cohesion in a region marked by tumultuous change. This document is essential reading for anyone interested in the dynamics of state-building and constitutional law, particularly in contexts characterized by ethnic diversity and post-conflict recovery. It not only delineates the institutional architecture of Kosovo but also serves as a testament to the resilience of its people and their quest for self-determination. Scholars, policymakers, and students alike will find this constitution an invaluable resource for understanding contemporary governance in Kosovo.

Tourism Ray Youell, 1998 This book is designed to provide a basic introduction to the tourism industry and is an ideal text for students requiring a concise and comprehensive introduction to the subject area.

Meeting Environmental Challenges Tom Crompton, Tim Kasser, 2009 In addressing environmental challenges like climate change, governments, charities and business tend to focus either on changing policy or business practice, or on urging individuals to adopt different behaviour. The role of human identity is largely absent from the debate. And yet, our identities - who we see ourselves as being - have a profound impact in shaping the responses we make to environmental challenges. This provocative book will rattle the cages of many environmentalists, 'green-minded' business-people and policy makers. In it, Crompton and Kasser suggest that many current approaches to addressing problems like climate change may actually inadvertently serve to reinforce those aspects of identity that drive us towards unsustainable behaviour in first place. They suggest that it will only be by re-shaping political debate and social institutions in order to promote more helpful aspects of identity that we can have any hope of meeting environmental challenges. The book closes by highlighting the opportunities that this perspective presents for building new alliances between people working not just on environmental issues, but also on a range of social and developmental concerns: Many of those aspects of human identity that frustrate progress on the environmental agenda also frustrate progress on meeting other challenges.

**Introduction to Finance** Lawrence J. Gitman, Jeff Madura, 2001 Due to ongoing advancements in technology, new legislation, and other innovations, the field of finance is rapidly changing. Developments in financial markets and investments necessitate that students be exposed to these topics as well as to financial management, the traditional focus of the introductory finance course. Introduction to Finance develops the three components of finance in an interactive framework that is consistent with the responsibilities of all financial professionals, managers, intermediaries, and investors in today's economy. To show the interrelationships between the areas of finance, the text emphasizes how investor activities monitor firms and focuses on the role of financial markets in channeling funds from investors to firms.

**Kanuni i Lekë Dukagjinit** Lekë Dukagjini, 1989 THE CODE OF LEKE DUKAGJINI is a great cultural treasure,

comparable to the chapters of The Old Testament. It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor.--David Binder, The New York Times. This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg. The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression.--Victor Meier, The Frankfurter Allgemeine Zeitung. The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice. The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life.--Ismail Kadare, Albanian writer.
