Italian Literature before 1900 in English Translation Robin Healey, 2011-12-15 Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the early periods that have been translated into English, and published between 1929 and 2008. It lists works from all genres and subjects, and includes translations wherever they have appeared across the globe. In this annotated bibliography, Robin Healey covers over 5,200 distinct editions of pre-1900 Italian writings. Most entries are accompanied by useful notes providing information on authors, works, translators, and how the translations were received. Among the works by over 1,500 authors represented in this volume are hundreds of editions by Italy's most translated authors – Dante Alighieri, Machiavelli, and Boccaccio – and other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with Healey's Twentieth-Century Italian Literature in English Translation, this volume makes comprehensive information on translations accessible for schools, libraries, and those interested in comparative literature.

The Adventures of Pinocchio (Le Avventure Di Pinocchio) Carlo Collodi, 2005-08-31 Carved from a piece of pine by a woodcarver named Geppetto in a small Italian village, Pinocchio was created as a wooden puppet, but dreamt of becoming a real boy.

Simplification, Explication and Normalization Margherita Ippolito, 2014-09-18 The search for general laws and regularities in Translation Studies gained new momentum in the 1990s when Baker (1993) promoted the use of large electronic corpora as research tools for exploring the linguistic features that render the language of translation different from the language of non-translated texts. By comparing a corpus of translated and non-translated English texts, Baker and her research team put forward the hypothesis that translated texts are characterized by some “universal features”, namely simplification, explication, normalization and levelling-out. The purpose of this study is to test whether simplification, explication and normalization apply to Italian translations of children's books. In order to achieve this aim, a comparable corpus of translated and non-translated works of classic fiction for children has been collected and analysed using Corpus Linguistics tools and methodologies. The results show that, in the translational subcorpus, simplification, explication and normalization processes do not prevail over the non-translational one. Therefore, it is suggested that the status of translated

children's literature in the Italian literary "polysystem" (Even-Zohar, 1979, 1990) and, from a general viewpoint, all the cultural, historical and social conditions that influence translators' activities, determine translation choices that can also tend towards processes different from those proposed by Baker.

Chipollino Gianni Rodari, G. Goand, 2021-02-20 Chipollino - in Italian means onion. The hero of the book of the writer Gianni Rodari was an onion boy. And all the inhabitants of the country, which is told in the tale, were akin to some kind of fruit or vegetables. Chipollino had tufts of green onions instead of curly hair on his head. He was perky and cheerful, hated injustice, bravely stood up for his friends and was not afraid of offenders. You will learn about the adventures of the onion-boy when you watch this filmstrip

Comparative Children's Literature Emer O'Sullivan, 2005-03-05 Emer O'Sullivan traces the history of children's literature studies, from the enthusiastic internationalism of the post-war period - which set out from the idea of a world republic of childhood - to modern comparative criticism.

Fictions of Sappho, 1546-1937 Joan DeJean, 1989-11-28 Considering Sappho as a creature of translation and interpretation, a figment whose features have changed with social mores and aesthetics, Joan DeJean constructs a fascinating history of the sexual politics of literary reception. The association of Sappho with female homosexuality has made her a particularly compelling and yet problematic subject of literary speculation; and in the responses of different cultures to the challenge the poet presents, DeJean finds evidence of the standards imposed on female sexuality through the ages. She focuses largely though not exclusively on the French tradition, where the Sapphic presence is especially pervasive. Tracing re-creations of Sappho through translation and fiction from the mid-sixteenth century to the period just prior to World War II, DeJean shows how these renderings reflect the fantasies and anxieties of each writer as well as the mentalité of his or her day.

Merchant Families, Banking and Money in Medieval Lucca Thomas W. Blomquist, 2024-10-28 This volume brings together a series of studies by Professor Blomquist on the evolution of banking in Lucca from the 12th and 13th centuries. They describe how the leading bankers operated, how they invested, and how they pursued their family interests. In particular, they trace the transformation of money changers, or *campsores*, into deposit and transfer bankers, who deployed their capital in trading ventures as well as in banking. Moreover, the author shows how Luccan merchant-bankers expanded their operations from Italy, first to the fairs of Champagne and ultimately to all of Europe's major commercial centres. Special attention is given to the use of the exchange contract, or *cambium*, as an instrument of credit and of transfer. Problems of coinage and foreign exchange are also treated extensively, including the origins of the Tuscan *grossi*

and the Lucchese gold groat. The collection concludes with a study of the cloth trade and another concerning the first consuls in Lucca.

Translating Others (Volume 1) Theo Hermans, 2014-04-08 Both in the sheer breadth and in the detail of their coverage the essays in these two volumes challenge hegemonic thinking on the subject of translation. Engaging throughout with issues of representation in a postmodern and postcolonial world, *Translating Others* investigates the complex processes of projection, recognition, displacement and 'othering' effected not only by translation practices but also by translation studies as developed in the West. At the same time, the volumes document the increasing awareness the the world is peopled by others who also translate, often in ways radically different from and hitherto largely ignored by the modes of translating conceptualized in Western discourses. The languages covered in individual contributions include Arabic, Bengali, Chinese, Hindi, Irish, Italian, Japanese, Latin, Rajasthani, Somali, Swahili, Tamil, Tibetan and Turkish as well as the Europhone literatures of Africa, the tongues of medieval Europe, and some major languages of Egypt's five thousand year history. Neighbouring disciplines invoked include anthropology, semiotics, museum and folklore studies, librarianship and the history of writing systems. Contributors to Volume 1: Doris Bachmann-Medick, Cosima Bruno, Ovidi Carbonell, Martha Cheung, G. Gopinathan, Eva Hung, Alexandra Lianeri, Carol Maier, Christi Ann Marrill, Paolo Rambelli, Myriam Salama-Carr, Ubaldo Stecconi and Maria Tymoczko.

King Con Paul Willetts, 2018-08-07 The spellbinding tale of hustler Edgar Laplante—the king of Jazz Age con artists—who becomes the victim of his own dangerous game. Edgar Laplante was a smalltime grifter, an erstwhile vaudeville performer, and an unabashed charmer. But after years of playing thankless gigs and traveling with medicine shows, he decided to undertake the most demanding and bravura performance of his life. In the fall of 1917, Laplante reinvented himself as Chief White Elk: war hero, sports star, civil rights campaigner, Cherokee nation leader—and total fraud. Under the pretenses of raising money for struggling Native American reservations, Laplante dressed in buckskins and a feathered headdress and traveled throughout the American West, narrowly escaping exposure and arrest each time he left town. When the heat became too much, he embarked upon a lucrative continent-hopping tour that attracted even more enormous crowds, his cons growing in proportion to the adulation of his audience. As he moved through Europe, he spied his biggest mark on the Riviera: a prodigiously rich Hungarian countess, who was instantly smitten with the con man. The countess bankrolled a lavish trip through Italy that made Laplante a darling of the Mussolini regime and a worldwide celebrity, soaring to unimaginable heights on the wings of his lies. But then, at the pinnacle of his improbable success, Laplante's overreaching threatened to destroy him... In *King Con*, Paul Willetts brings this previously untold story to life in all its surprising absurdity, showing us how our tremendous capacity for belief and our longstanding obsession with celebrity can make fools of us all—and proving that sometimes truth is stranger than fiction.

Italian Crime Fiction Giulana Pieri,2011-10-15 Italian Crime Fiction is the first study in the English language to focus specifically on Italian detective and noir fiction from the 1930s to the present. The eight chapters include studies on some of the founding fathers of the Italian tradition, and mainstream writers. The volume has a particular focus on the new generation of crime writers.

Huck Finn in Italian, Pinocchio in English Iain Halliday,2009 This book represents an investigation into one of the basic issues in the study of translation: how do we reconcile theory and practice? The main focus, in the form of close readings and think-aloud protocols in Chapters 2 and 3, is on translations of two classic texts: Mark Twain's The Adventures of Huckleberry Finn and Carlo Collodi's Le avventure di Pinocchio. The first and last chapters respectively seek to show what translation theory is and what translation practice is. Indeed, Chapter 1, Theory and Hubris, provides a synthesis of the development of the interdiscipline of Translation Studies, with some consideration also given to the hermeneutical questions that inevitably arise when dealing with the interpretation of language.

La Liberazione della Donna Anna Maria Mozzoni,2014-10-25 Dedicato alla madre e rivolto alle giovani donne, nella speranza che il Risorgimento politico fosse anche un risorgimento femminile, è lo scritto La donna e i suoi rapporti sociali, pubblicato nel 1864. Convinta repubblicana, non esita a rimproverare a Mazzini e ai suoi seguaci l'idea conservatrice che il posto della donna stia soltanto nella famiglia: «non dite più che la donna è fatta per la famiglia, che nella famiglia è il suo regno e il suo impero! Le son queste vacue declamazioni come mille altre di simil genere! Ella esiste nella famiglia, nella città, in faccia ai pesi e ai doveri; di questi all'infuori, ella non esiste in nessun luogo». Il presente eBook ricalca e rinforza i temi già sviluppati in La Donna e i suoi Rapporti Sociali.

Translating Children's Literature Gillian Lathey,2015-07-24 Translating Children's Literature is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature, from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering: · Narrative style and the challenges of translating the child's voice; · The translation of cultural markers for young readers; · Translation of the modern picture book; · Dialogue, dialect and street language in modern children's literature; · Read-aloud qualities, wordplay, onomatopoeia and the translation of children's poetry; · Retranslation, retelling and reworking; · The role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from

commentaries and interviews with published translators of children's literature, as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students. Translating Children's Literature is essential reading for professional translators, researchers and students on courses in translation studies or children's literature.

Italy in the Second Half of the 19th Century: Bridging New Cultures Francesca Cadel, Paola Nastri, 2024-01-24 A period of turmoil, uncertainty, and fears, the second half of the nineteenth century in Italy is also characterized by resilience, creativity, courageous discussions on the emancipation of women, and a variety of cultural products that are instrumental for the birth of a new and modern culture that will lead to the achievements of the twentieth century. Contributing to and expanding on recent scholarships on Italian literature of the nineteenth century, the book presents a series of literary, interdisciplinary and intercultural case studies. These case studies explore the social and cultural dimensions of the period, investigating the historical, literary, artistic, cultural, and social events of the time while probing their significance and relevance in bridging new Italian cultures.
