Somaliland's Private Sector at a Crossroads Peter Mousley,Jade Ndiaye,Joshua Wimpey,Mohammed Amin,Cari Votava,Marco Nicoli,Kenneth John Menkhaus,David Anthony Phillips,2015 Somaliland's Private Sector at a Crossroads is the World Bank Group's first effort to undertake a consultative in-depth analysis of the private and financial sector in Somaliland in at least a generation. The objective of the report is to take stock of what has been achieved since the 1999 constitution was approved, provide an assessment of the current evolution of the private sector, and identify some priority policy options and related actions that would best enable the private sector to generate the growth and jobs sought under the Somaliland National Development Plan. The report is structured around the three key sector 'actors' of the economy: enterprises, financial institutions, and the government. This approach has been taken to facilitate a 'political economy' lens into the analysis. The report explores trends in, opportunities for, and impediments to effective government regulation of the private and financial sector and private sector-led economic growth in Somaliland, a relatively new democracy with limited institutional capacities. Drawing heavily on feedback received through an extensive consultative process that was undertaken in tandem with the analysis, the study concludes with recommendations for policy choices for the continued robust growth of the private sector and the evolution of a sounder financial sector.

Education Sector Strategy ,1999-01-01 Annotation Human Development Network Series. As the new millennium approaches,... Education will determine who has the keys to the treasures the world can furnish. This is particularly important for the poor, who have to rely on their human capital as the main, if not the only, means of escaping poverty. In this way, new challenges and opportunities arise for education. Immense progress has been achieved in education in the last 50 years. However, immense challenges still remain. This report lays out the vision for education and the ambitious international goals to which the Bank subscribes. It notes the progress so far and the gaps that remain. It describes the rich group of partners associated with the educational endeavor and how the Bank's role has evolved. It conveys the Bank's global priorities and programs to help countries progress toward the international education goals and improve the quality of

teaching and learning. It illustrates the processes and operating principles that will help Bank staff contribute more effectively to better educational outcomes in each client country and to monitor success in implementing this strategy. Also available in French (Stock no. 14632) and Spanish (Stock no. 14633).

THE EARLY GRADE READING ASSESSMENT Amber K. Gove, Anna Wetterberg, 2011-09-28 The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.

Diaspora diplomacy Ayca Arkilic, 2022-06-07 Since the early 2000s, Turkey has shown an unprecedented interest in its diaspora. This book provides the first in-depth examination of the institutionalisation of Turkey's diaspora engagement policy since the Justice and Development Party's rise to power in 2002, the Turkish diaspora's new role as an agent of diplomatic goals, and how Turkey's growing sphere of influence affects intra-diaspora politics and diplomatic relations with Europe. The book is based on fieldwork in Turkey, France and Germany, and interviews conducted with diaspora organisation leaders and policymakers. Diasporas have become transformative for relations at the state-to-state level and blur the division between the domestic and the foreign. A case study of Turkey's diasporas is significant at a time when emigrants from Turkey form the largest Muslim community in Europe and when issues of diplomacy, migration and citizenship have become more salient than ever.

The Human Body Bruce M. Carlson, 2018-10-19 The Human Body: Linking Structure and Function provides knowledge on the human body's unique structure and how it works. Each chapter is designed to be easily understood, making the reading interesting and approachable. Organized by organ system, this succinct publication presents the functional relevance of developmental studies and integrates anatomical function with structure. - Focuses on bodily functions and the human body's unique structure - Offers insights into disease and disorders and their likely anatomical origin - Explains how developmental lineage influences the integration of organ systems

The Roots of Somali Political Culture Mary-Jane Fox, 2015 'Excellent.... a book that sheds new light on the political culture of Somaliland, Puntland, and Somalia.' 'Christopher L. Daniels, Florida A&M University The fragmentation of the former Somali Democratic Republic into three distinctive entities, together with the events that have ensued since then, make for a complex political puzzle that raises a plethora of questions. M. J. Fox explores some of the most fundamental of those questions: Have the 'three Somalias' of today always been as disparate as they are now? How deeply rooted are those

differences? Why has southern Somalia remained steeped in violence while Somaliland and Puntland are relatively peaceful and stable? And does political culture have any role to play in contemporary Somali politics? As she traces the compelling influences of political culture over time, Fox provides a unique comparative analysis of Somaliland, Puntland, and Somalia in the twenty-first century. M. J. Fox is an independent scholar, formerly with the Department of Peace and Conflict Research at Uppsala University.

“My Clan Against the World”: U.S. and Coalition Forces in Somalia 1992-1994, 2004 This study examines the American military's experience with urban operations in Somalia, particularly in the capital city of Mogadishu. That original focus can be found in the following pages, but the authors address other, broader issues as well, to include planning for a multinational intervention; workable and unworkable command and control arrangements; the advantages and problems inherent in coalition operations; the need for cultural awareness in a clan-based society whose status as a nation-state is problematic; the continuous adjustments required by a dynamic, often unpredictable situation; the political dimension of military activities at the operational and tactical levels; and the ability to match military power and capabilities to the mission at hand.

Historical Dictionary of Somalia Mohamed Haji Mukhtar, 2003-02-25 Despite advances in modern communication and the proliferation of information, there remain areas of the world about which little is known. One such place is Somalia. The informed public is aware of a political meltdown and consequent chaos there, but few comprehend the causes of this tragic crisis. This new edition covers Somalia's origin, history, culture, and language, as well as current economic and political issues. The alphabetical arrangement of this Dictionary, with a complete chronology, list of acronyms, and in-depth bibliography provide useful information about the country in a convenient format. A vital addition to reference collections supporting undergraduate and graduate programs on Africa and the Middle East, international relations, and economics- a useful fact-filled compendium for government and public libraries, NGO's, and other special libraries

The Resolution of African Conflicts Alfred G. Nhema, Tiyambe Zeleza, Paul Tiyambe Zeleza, 2008 These two volumes clearly demonstrate the efforts by a wide range of African scholars to explain the roots, routes, regimes and resolution of African conflicts and how to re-build post-conflict societies. They offer sober and serious analyses, eschewing the sensationalism of the western media and the sophistry of some of the scholars in the global North for whom African conflicts are at worst a distraction and at best a confirmation of their pet racist and petty universalist theories. --From the introduction by Paul Tiyambe Zeleza This book offers analyses of a range of African conflicts and demonstrates that peace is too important

to be left to outsiders.

The Orchard of Lost Souls Nadifa Mohamed, 2014-03-04 From one of Granta's Best of Young British Novelists comes *The Orchard of Lost Souls*, a stunning novel illuminating Somalia's tragic civil war. It is 1987 and Hargeisa waits. Whispers of revolution travel on the dry winds, but still the dictatorship remains secure. Soon, through the eyes of three women, we will see Somalia fall. Nine-year-old Deqo has left the vast refugee camp where she was born, lured to the city by the promise of her first pair of shoes. Kawsar, a solitary widow, is trapped in her little house with its garden clawed from the desert, confined to her bed after a savage beating in the local police station. Filsan, a young female soldier, has moved from Mogadishu to suppress the rebellion growing in the north. As the country is unraveled by a civil war that will shock the world, the fates of these three women are twisted irrevocably together. Nadifa Mohamed was born in Hargeisa and was exiled before the outbreak of war. In *The Orchard of Lost Souls*, she returns to Hargeisa in her imagination. Intimate, frank, brimming with beauty and fierce love, this novel is an unforgettable account of ordinary lives lived in extraordinary times.

Pirate State Peter Eichstaedt, 2010-10-01 In 2009, the United States was hit broadside by Somali pirates who attempted to capture the U.S. flag ship *Maersk Alabama*. Suddenly, the pirates were no longer a distant menace. They had thrust themselves onto the American stage. Are the Somali pirates a legion of desperate fisherman attacking cargo ships and ocean cruisers to reclaim their waters? Or is piracy connected to crime networks and the madness that grips Somalia? What threats do pirates pose to international security? To answer these questions, Peter Eichstaedt crisscrosses East Africa, meeting with pirates both in and out of prisons, talking with them about their lives, tactics, and motives. Ultimately, he comes face-to-face with a former fighter with Somalia's brutal Islamic al-Shabaab militia. He discovers that piracy is a symptom of a much deeper problem: Somalia itself. *Pirate State* explores the links between the pirates, global financiers, and extremists who control southern Somalia and whose influence extends across the Gulf of Aden into Yemen and connects to extremists in Pakistan and Afghanistan. The Somali pirates are desperate and dangerous men who will do just about anything for money, and *Pirate State* argues that turning a blind eye to piracy and the problems of Somalia is inviting a disaster of horrific proportions.

Citizenship Law in Africa Bronwen Manby, 2012-07-27 Few African countries provide for an explicit right to a nationality. Laws and practices governing citizenship leave hundreds of thousands of people in Africa without a country to which they belong. Statelessness and discriminatory citizenship practices underlie and exacerbate tensions in many regions of the continent, according to this report by the Open Society Institute. *Citizenship Law in Africa* is a comparative study by the Open Society Justice Initiative and Africa Governance Monitoring and Advocacy Project. It describes the often arbitrary,

discriminatory, and contradictory citizenship laws that exist from state to state, and recommends ways that African countries can bring their citizenship laws in line with international legal norms. The report covers topics such as citizenship by descent, citizenship by naturalization, gender discrimination in citizenship law, dual citizenship, and the right to identity documents and passports. It describes how stateless Africans are systematically exposed to human rights abuses: they can neither vote nor stand for public office; they cannot enroll their children in school, travel freely, or own property; they cannot work for the government.--Publisher description.
