Homemade Money Barbara Brabec, 1989 Here is a comprehensive business how-to and resource guide, revised and completely updated.

Literacy Leadership to Support Reading Improvement Mary Kay Moskal, Ayn F. Keneman, 2011-10-14 Packed with vivid examples from actual schools, this book explores specific ways that literacy leaders can partner with teachers to meet all students' instructional needs. It provides a range of research-based strategies for implementing effective instruction in a response-to-intervention framework. It also describes innovative interventions—including schoolwide programs and family and community initiatives—that promote success for struggling readers. Practical ideas are presented for engaging particular populations, such as boys and middle and high school students, and for supporting teachers' professional development. Eight reproducible handouts and forms can be downloaded and printed in a convenient 8 1/2 x 11 size.

The Wright Brothers for Kids Mary Kay Carson, 2003 How they Invented the Airplane includes facts about these brothers and their invention, plus projects.

The Smith Alumnae Quarterly, 1940

Mary's Choice Kay Cornelius (Deceased), 2012-08-01 Though she's tried to believe she's satisfied just as a first-grade teacher, Mary Oliver longs to be a wife and a mother. Walter Chance, a high-school friend, seems more than interested in Mary. And Todd Walker, her childhood crush, has resurfaced and lavishes Mary with attention. To top it all off, the less formal Community Church has just hired Jason Abbott to be their new assistant pastor, and while less polished than the others, he enjoys Mary's heart for children and her dedication to the Lord. When a parcel of land begins to be overrun with mystery, Mary must choose the look beyond the appearances of men and seek the Lord.

Living When Everything Changed Mary Kay Thompson Tetreault, 2019-08-09 In this compelling memoir, Mary Kay Thompson Tetreault describes how a Catholic girl from small-town Nebraska discovered her callings as a feminist, as an academic, and as a university administrator. With remarkable candor and compassion, she reflects on how second-wave feminism has transformed academia and how much reform is still needed.

Suppressed, Forced Out and Fired Martha Reeves, 2000-06-30 So entrenched and powerful is the patriarchy within organizations that women have serious difficulty acquiring positions of real importance, even when it is in the organization's best interest to use their talents fully (and reward them equitably). Reeves surveys the structural obstacles to women's advancement and argues that successful women executives threaten their male counterparts and their patriarchal culture, which responds by punishing them. Unlike other studies on the topic, Reeves explains the mechanisms by which gender discrimination operates—the dynamics of discrimination and the processes by which women in business are marginalized, subordinated, and excluded. Her book combines theory with first person case study accounts of 10 women who were suppressed, then fired. The result is a fresh, compelling argument that, despite claims to the contrary, the glass ceiling still exists. The patriarchy has simply devised subtle new ways to circumvent the legal remedies meant to crack through it. Reeves reviews statistics on the role of women in work, patterns of horizontal and vertical segregation, and differences in the experiences of men and women, then turns to an assessment of the theories of women's subordination. She profiles each of her 10 women subjects, explains their education, career trajectory, and accomplishments. Their experiences reveal various mechanisms through which the patriarchy operates to subordinate successful women, such as communication patterns among men that minimize women's contributions, withholding of information, denial of status to women, intimidation tactics, and the double bind that women find themselves in when they seek fair treatment. After analyzing the women's termination in detail, Reeves discusses how each woman's personality played a role in her termination. Reeves ends by drawing conclusions on what the present and future seem to hold for women's progress in organizations, and particularly in publicly held corporations.
