**Emerging Voices** Human Sciences Research Council, Education Policy Consortium (South Africa), 2005 This examination graphically illustrates the conditions that make dreams of a better life for all virtually unrealizable in rural areas of South Africa. Through the voices of rural people themselves, this study tells not only what the problems surrounding education are but also what can and should be done when the South African government launches its offensive against poverty in rural areas. Rigorous and qualitative, the text is an overview of the need of great numbers of people for the opportunities and capabilities that education can provide for their futures. It also shows the existing situation of many impoverished populations worldwide and illustrates that poverty and inequality continue where such issues are not addressed.

*Beyond Memory* Max Mojapelo, 2008 South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. And if one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it is most striking in the musics of the black communities. *Beyond Memory: Recording the History, Moments and Memories of South African Music* is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of a man, Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a deejay at the South African Broadcasting Corporation. This book - astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries.

Cultivating Development David Mosse, 2005 Critiques the very essence of development policy, especially the complex relationship between policy and practice and role of participation.

Epidemiology Of Eye Disease, The (Third Edition) Gordon J Johnson, Darwin C Minassian, Robert A Weale, Sheila K West, 2012-03-13 This unique book is a comprehensive coverage of the epidemiology of the world's major blinding eye diseases, written by internationally acclaimed experts in each field. Edited by world-renowned epidemiologists and ophthalmologists, the chapters on each leading cause of blindness describe its biology, epidemiology, risk factors, clinical trials, possibilities for prevention, and new research avenues. New chapters include Research Synthesis, Epidemiology of Dry Eye Disease, and Epidemiology of Uveitis, as well as programme issues for reaching the goal of eliminating avoidable blindness by 2020. This book is essential for any eye care practitioner interested in the causation or prevention of disease, and should be part of any public health discipline's library with a focus on improving eye health worldwide.

**Introduction to Rubrics** Dannelle D. Stevens, Antonia J. Levi, 2023-07-03 This new edition retains the appeal, clarity and practicality that made the first so successful, and continues to provide a fundamental introduction to the principles and purposes of rubrics, with guidance on how to construct them, use them to align course content to learning outcomes, and

apply them in a wide variety of courses, and to all forms of assignment. Reflecting developments since publication of the first edition, the authors have extended coverage to include: \* Expanded discussion on use of rubrics for grading \* Grading on-line with rubrics \* Wider coverage of rubric types (e.g., holistic, rating scales) \* Rubric construction in student affairs \* Pros and cons of working with ready-made rubrics \* Using rubrics to improve your teaching, and for SoTL \* Use of rubrics in program assessment (case study) \* Application of rubrics in the arts, for study abroad, service learning and students' independent learning \* Up-dated literature review

**Nursing Research: Reading, Using and Creating Evidence** Houser, 2018 « Nursing Research: Reading, Using, and Creating Evidence, Fourth Edition focuses on the concept that research is essential as evidence for nursing practice. Written in a conversational tone and using a reader-friendly approach, this text teaches students how to translate research into evidence in a practical way. The text enables students to gain a fundamental understanding of all types of research used for evidence through its emphasis on research methods, use of research evidence in clinical decision-making, and ways to engage in evidence-based practice. The Fourth Edition highlights the importance of translating research findings into evidence as the most critical step for improving patient care. This updated edition contrasts six different models for organizational evidenced-based practice, including Magnet designation requirements, collaboration between researchers and practitioners for knowledge translation, community and home health evidence-based practice, and the challenges of creating an organizational culture that values evidence-based practice. »--

**Bioethics, Human Rights and Health Law** Ames Dhai, David Jan McQuoid-Mason, 2010 This book provides healthcare and legal practitioners and students at all levels with the theory and practical application necessary to understand and apply bioethics, human rights and health law to their present and future work. The topics of bioethics, human rights and health law are part of the core curriculum for all students in Health Sciences in South Africa. The book, therefore comes at no better time.

**Combating Micronutrient Deficiencies** Brian Thompson, Leslie Amoroso, 2011 This book, inclusive of 19 chapters, provides discussions on the benefits and limitations of food-based approaches for the prevention and control of micronutrient malnutrition. Different chapters focus on specific relevant topics, including current developments in food-based approaches and their program applications, relevance of agricultural interventions to nutrition, impact of multi-sectoral programmes with food-based approaches components in alleviating undernutrition and micronutrient malnutrition, animal-source foods as a food-based approach to address nutrient deficiencies, aquaculture's role in improving food and nutrition security, benefits of vegetables and fruits in preventing and combating micronutrient malnutrition, benefits of food-based approaches for

overcoming single specific micronutrient deficiencies, and food fortification. This book will be of great use to professionals interested in public health, human nutrition, micronutrient deficiency interventions, food and nutrition security policy interventions, and agricultural research.

**Townspeople of the Soutpansberg** Johann W. N. Tempelhoff, 1999

*Humanistic Nursing* Josephine Paterson, 2016-05-14 Concisely, humanistic nursing practice theory proposes that nurses consciously and deliberately approach nursing as an existential experience. Then, they reflect on the experience and phenomenologically describe the calls they receive, their responses, and what they come to know from their presence in the nursing situation. It is believed that compilation and complementary syntheses of these phenomenological descriptions over time will build and make explicit a science of nursing. **Nursing Research** Denise F. Polit, Cheryl Tatano Beck, 2020-02-12 Research methodology is a dynamic enterprise. Even after writing 10 editions of this book, we have continued to draw new material and inspiration from ground-breaking advances in research methods and in nurse researchers' use of those methods. It is thrilling to share many of those developments in this new edition. We expect that many of the new methodologic and technological enhancements will be translated into powerful evidence for nursing practice. Four years ago, we considered the 10th edition as a watershed edition of a classic textbook, having added two new chapters. We are persuaded, however, that this 11th edition is even better than the previous one. We have retained many features that made this book a classic textbook and resource, including its focus on research as a support for evidence-based nursing, but have introduced important innovations that we hope will help to shape the future of nursing research--
